**IV. OTHER MATTERS**

- A. Distribution of Kansas State Safety Funds Associate Director Chambers
  - Commercial Driver Training Fund (K.S.A. 8-272)
  - Motorcycle Safety Fund (K.S.A. 8-267)B. AY 23 Excel in CTE Fees Director Henry  
C. Legislative Update Director Casey  
D. January TEA Meeting Chair Hess  
E. TEA FY 2021 Legislative Report Vice President Smathers

**V. COLLEGE UPDATES**

Hutchinson Community College President File  
Northwest Kansas Technical College President Schears

**VI. NEXT MEETING REMINDER**

Chair Hess

**VII. ADJOURNMENT**

**KANSAS POSTSECONDARY  
TECHNICAL EDUCATION AUTHORITY  
MEETING**

A virtual meeting of the Kansas Postsecondary Technical Education Authority (TEA) was held via ZOOM on October 28, 2021.

**Members Present**

Mark Hess, Vice Chair  
Jason Cox  
Keith Humphrey  
Debra Mikulka  
Mike Johnson  
Amber Shultz

Tiffany Anderson  
Eddie Estes  
Rita Johnson  
Mike Beene

**Others Present**

Heather Morgan, Kansas Association Community College Trustees  
Cloud County Community College  
Fort Scott Community College  
Hutchinson Community College  
Manhattan Area Technical College  
Seward County Community College  
Washburn Institute of Technology

**Kansas Board of Regents Staff Present**

Scott Smathers  
April Henry  
Sue Grosdidier  
Vera Brown  
Eric Tincher  
Charmine Chambers  
Hector Martinez  
Susanna Lee

Tobias Wood  
Elaine Frisbie  
Matt Casey  
Cindy Farrier  
Lisa Beck  
Steve Funk  
Susan Henry

**CALL TO ORDER**

The meeting was called to order by Vice Chair Hess at 10:00 A.M. Vice Chair Hess provided members with virtual meeting guidelines.

**Approval of Minutes**

Vice Chair Hess called for a motion to approve the minutes from the September 15, 2021 and September 30, 2021 meetings.

**Motion:** Member Estes moved to approve the minutes of the September 15, 2021 and September 30, 2021 meetings. Following a second by Member Beene, the motion carried.

**REPORTS**

**Introductions**

Vice Chair Hess asked for introductions. Vice President Smathers introduced new Associate Director for Adult Education, Susanna Lee.

Vice Chair's Report  
None.

Member Liaison Reports  
Vice Chair Hess invited TEA member activity reports.

Member Estes reported that over 750 high school and middle school students from area Kansas and Oklahoma schools attended Dodge City Community College's Tech Career Exploration Day last Wednesday at the Western State Bank Expo Center, and it included informational booths, demonstrations, exhibits, games, and giveaways.

Member Beene reported that the Department of Commerce recently hired Shonda Atwater as a Director of Internships and Apprenticeships. She will be leading the internships and apprenticeship initiatives from an agency perspective.

Member Anderson reported that Board Staff presented to the Commission for Racial Equity and Justice and gave information and recommendations related to postsecondary education, including credit transfer from the two-year colleges to the four-year universities. She shared that the Inner-Council governmental group meets monthly with Washburn Tech, and more details are forthcoming on a new initiative regarding the expansion of tech classes in the juvenile justice system. She reported that Shawnee County held a college fair, hosted by T-CALC, with just over 90 colleges participating, and career opportunities we also showcased.

Vice President for Workforce Development Report

Vice Chair Hess called on Vice President Smathers to provide members with a Workforce Development report. Vice President Smathers reported work continues with the Promise Act, including developing a trailer bill, speaking with legislators and colleges, making presentations, and reaching out to the colleges regarding their distribution needs for the spring. In addition, Board Staff is working on the Promise Act rules and regulations and will provide drafts to the colleges for their feedback. He reported that there have been multiple discussions regarding institution service areas and the importance of providing a better understanding for Unified School Districts, businesses, and the educational institutions. He reported that Board Staff is in the process of creating some short marketing videos funded by a \$10,000 grant from ITC Holdings. He reported that he shared a presentation at the National Advanced CTE Conference regarding Kansas military articulation efforts and attended the annual Workforce Innovation Conference in Wichita at the beginning of October. He reminded members that the TEA will pay for their attendance at the Mid-America Workforce Summit, which is being held January 19th and 20th in Topeka

Report from the Community Colleges

Vice Chair Hess called upon Fort Scott Community College President Johnston to provide members with a report from the community colleges.

Report from the Technical Colleges

Vice Chair Hess called upon Manhattan Area Technical College President Genandt to provide members with a report from the technical colleges.

### **CONSENT AGENDA**

Budget and Finance Committee

State Innovative Technology Grant Recommendations

Garden City Community College - Industrial Machine Mechanic

Northwest Kansas Technical College - Diesel Technology

Seward County Community College - Grain Elevator Operator  
Wichita State University Campus of Applied Sciences and Technology - Welding

Program and Curriculum Committee

New Program Proposals

Barton Community College: Plumbing (46.0503)

Washburn Institute of Technology: Sterile Processing (51.1012)

Washburn Institute of Technology: Plumbing (46.0503)

Excel in CTE Fees

Barton Community College: Plumbing (46.0503)

Washburn Institute of Technology: Sterile Processing (51.1012)

Washburn Institute of Technology: Plumbing (46.0503)

Promise Act

Washburn Institute of Technology: Sterile Processing (51.1012)

Washburn Institute of Technology: Plumbing (46.0503)

Vice Chair Hess called for a motion to approve the Consent Agenda items from the Budget & Finance Committee and Technical Program and Curriculum Committee.

**Motion:** Member R. Johnson moved to approve the Consent Agenda items. Following a second by Member Estes, the motion carried by roll call vote.

**OTHER MATTERS**

Excel in CTE Fee Process

Vice Chair Hess called on Director Henry to lead discussion regarding the Excel in CTE Fee Process. Director Henry reminded members the fees are collected on an annual basis. The initial year data was provided through an Excel spreadsheet. The second-year data was backfilled on those spreadsheets by Board staff and institutions were asked to review and update that information. Director Henry asked members how they would like Board Staff to organize and compile the third-year data to present the information to them. Director Henry added that in efforts to keep fees transparent for students, Board staff are now asking for additional specific details regarding the breakdown of program fees that are grouped together (i.e., kits). Members indicated that they would prefer to focus only on program fees that have been altered for the upcoming year.

**Motion:** Following discussion, Member R. Johnson moved to approve the Excel in CTE Fee review process, redefined to provide information to the TEA for review on those programs with fee changes for the upcoming year only, organized by program. Following a second by Member Beene, the motion carried by roll call vote.

Legislative Update

Vice Chair Hess called on Director Casey to provide members with a legislative update. Director Casey gave a brief report to members on the recent and upcoming activities of the Legislature. He shared that Board staff have been requested to present in front of the Special Committee on Government Overreach and COVID 19 vaccines to discuss the federal vaccine mandate that affects federal contracts at the universities, including public and private institutions. He added that the Department of Education is anticipated to release further guidance on the impact of the mandate as well. He reported that last week the Governor, legislators, engineering community and higher education representatives attended a bill signing ceremony that was held at Bartlett and West Engineers for the reauthorization of the Engineering

Initiative Act. Representatives celebrated the ten successful years of this program, but also the reauthorization and the bill signing of ten more years.

#### GED Update

Vice Chair Hess called on Associate Director Grosdidier to provide a GED update. Associate Director Grosdidier gave a brief background of the Kansas GED program. She explained that there are two options for high school equivalency in the state of Kansas; the GED, for which students take four tests in language arts, math, science and social studies, and the Kansas Pathway to Careers diploma. She provided a data sheet to members for the number of GED tests taken, which has been adversely affected by the pandemic. She explained that Kansas has always fared very well in its pass rate, consistently above the nation's average of 77% with the average for Kansas above 80%. She explained she believes the data for next year, due to the pandemic, will reflect a larger number of 16- and 17-year-old students choosing to take the GED. She informed members that also due to the pandemic, GED online test taking became an option for the first time, with very strict guidelines, and reflected a 92% pass rate. She shared with members that Kansas Pathway to Careers is an additional option for students 21 and older, who will complete a technical certificate as well as completing their high school diploma at the same time. She explained this option is being utilized in the state's Department of Corrections facilities. She provided information on the advertising campaign that includes signs on the sides of buses and billboards for both GED testing and the Kansas Pathway to Careers, and details of the Cox media campaign, sharing that the success of the advertising campaigns is reflected in the number of Kansas Board of Regents website hits for more information that have been tabulated. She reported that data reflects more people in Kansas are completing their high school education.

#### Adult Education Update

Vice Chair Hess called on Director Hector Martinez to provide an Adult Education Update. Director Martinez informed members that Board staff continues to provide high-quality professional development to local adult education programs, monitor programs for compliance, report federal data on professional development and develop initiatives for career readiness and teaching skills. He provided members with data on adult learner enrollment, status, and characteristics. He informed members that online professional development initiatives included the online College and Career Readiness Standards (CCRS) training, 'Becoming an Adult Educator', the Student Achievement in Reading (STAR) initiative and Teaching Skills That Matter (TSTM). He explained that due to the pandemic, there have been challenges to provide adult education programs online or face to face with restrictions and the programs need to adapt to new ways of learning and providing opportunities for students. Enrollment for 2021 was impacted and although programs successfully implemented online learning, overall state enrollment decreased by 1,851 (-29.92%) compared to 2020. While enrollment decreased, programs were still able to effectively serve students with 61.63% achieving a measurable skill gain; a slight increase compared to the fiscal year 2020 (60.54%). Director Martinez reported that moving ahead, the first quarter collection for FY22 programs reports a 50% enrollment compared to FY21, which is a positive, and Board staff will continue to adopt new ways to provide services to programs blending face to face and hybrid options.

#### AO-K @ Work Update

Vice Chair Hess called on Associate Director Beck to provide an AO-K @ Work update. Associate Director Beck reminded members that Employees participating in the AO-K @ Work program can further their education at no cost with assistance in earning a high school diploma. Instruction is available in English language learning, skills for the workplace, and is held at the workplace, compatible with employee work schedules. She reported that as the COVID restrictions begin to ease, Kansas adult education providers are getting back into the workplaces they serve, and employers are recognizing the importance of offering employees new and creative benefits to attract and retain staff. She reported that there are currently five adult education centers serving sixteen businesses through the AO-K @ Work project. She provided members with a list of the institution and business participants. She informed

members that 229 students have completed the program, exceeding the original grant application goal. She shared student success stories, and comments from the business partners.

**TEA Election of Officers**

Vice Chair Hess called on Vice President Smathers to lead discussion regarding the election of TEA Officers. Vice President Smathers explained that upon resignation of the Chair, TEA policy does not direct for the promotion of the Vice Chair and an election must be held. Vice President Smathers shared that he had contacted TEA members over the last two weeks requesting input for nominations. He reported that member input recommended electing Vice Chair Hess as Chair, and nominating Member Cox for the Vice Chair role. He also informed members that he spoke with Member Hess and Member Cox and they indicated to him they are willing to accept the officer roles.

**Motion:** Member Shultz moved to elect Member Hess as Chair of the TEA and Member Cox as the Vice Chair. Following a second by Member Anderson, the motion carried by roll call vote.

**NEXT MEETING REMINDER**

Vice Chair Hess reminded members that the next regular TEA meeting is scheduled to be in-person at the KBOR office on December 2, 2021 at 10:00 A.M.

**ADJOURNMENT**

With no further business, Vice Chair Hess adjourned the meeting at 11:19 A.M.

Respectfully submitted by:  
Susan Henry, Executive Assistant

## Act on requests for degree and/or certificate programs submitted from community colleges and technical colleges

### Summary

*The Board office received requests from:*

- *Northwest Kansas Technical College to offer a Technical Certificate A, Technical Certificate B, and Associate of Applied Science degree in Child Care Specialist*
- *Northwest Kansas Technical College to offer a Technical Certificate A, Technical Certificate C, and Associate of Applied Science degree in Plumbing Technology*
- *Washburn Institute of Technology to offer a Technical Certificate B in Industrial Production Technology*
- *Wichita State University Campus of Applied Sciences and Technology to offer a Technical Certificate A, Technical Certificate B, Technical Certificate C, and Associate of Applied Science degree in Manufacturing Technology*
- *Wichita State University Campus of Applied Sciences and Technology to offer an Associate of Applied Science degree in Registered Nursing*

*The programs addressed all criteria requested and were subject to the 10-day comment period required by Board policy. Programs were reviewed by the Program and Curriculum Committee and are recommended for approval by the Technical Education Authority.*

*12/2/2021*

### Background

Community and technical colleges submit requests for new certificate and degree programs utilizing forms approved by Board staff. Criteria addressed during the application process include, but are not limited to, the following: program description, demand for the program, duplication of existing programs, faculty, costs and funding, and program approval at the institution level.

### Description of Proposed Programs:

**Northwest Kansas Technical College** requests approval of the following program:

- Child Care Specialist (19.0708) – Technical Certificate A/17 credit hours, Technical Certificate B/32 credit hours, and Associate of Applied Science degree/62 credit hours

According to the U.S. Department of Education, CIP Code 19.0708 Child Care and Support Services Management is defined as a program that focuses on the provision and management of childcare services and that prepares individuals to plan, design, and manage childcare facilities and programs that meet children's developmental needs and interests and that provide safe and healthy environments. Curriculum includes instruction in child development, psychology, home- and institution-based childcare, identification of diseases, injuries, psychological trauma, applicable referrals, parent relations, personnel, business management principles, and related laws and policies.

Cross-walking the proposed CIP Code (19.0708 Child Care and Support Services Management) to occupations resulted in one standard occupation classification code (SOC Code), 25-2011 Preschool Teachers, Except Special Education. The occupation is defined as an employee who instructs preschool-aged students, following curricula or lesson plans, in activities designed to promote social, physical, and intellectual growth.

The Child Care Specialist program is the result of several entities (Sherman County Community Foundation, LiveWell Northwest Kansas, Northwest Kansas Education Service Center, USD352, local childcare providers, the

regional hospital, and the college) discussing the needs of the local area. Childcare and health issues were specifically mentioned for the region. In Sherman County, there are 460 children under the age of 6. There are 16 family or group childcare centers, zero childcare centers, and one preschool/head start program. This equates to 49% of the potential demand is met by existing infrastructure. Similar statistics are replicated among the seventeen counties with the colleges service area.

The proposed program consists of three exit points, a 17-credit hour Technical Certificate A, a 32-credit hour Technical Certificate B, and a 62-credit hour Associate of Applied Science degree. Upon completion, students would be eligible for the Child Development Associate certificate offered through the Council for Professional Recognition.

The college plans to seek accreditation from the National Association for the Education of Young Children. The program must have graduated at least one student before being eligible for accreditation review.

The Kansas Department of Labor Long-term Occupation Projections 2018-2028 indicate a statewide change of employment for Preschool Teachers of 5.1% with an annual median wage of \$29,280 with an Associate’s degree as the typical education needed for entry. Annual openings equate to 218 jobs per year. According to the 2019 Perkins Comprehensive Local Needs Assessment, there is a gap in the numbers of concentrators and completers in the local area. The updated 2022 Local Needs Assessment shows 64 students on waitlists for Head Start and 38 children on the waitlists for Early Head Start in the twelve counties served.

Emsi job posting analytics show that from October 2020 to October 2021, roughly 12,120 total postings (2,853 unique postings) were advertised statewide with a median advertised salary of \$28,100.

Four letters of support for the proposed program were received from Unified School District 352, Grainfield Community Development Committee, Goodland Regional Medical Center, and LiveWell Northwest Kansas. Supports and commitments for the program include serving on the local advisory committee, providing expertise regarding curriculum, training and equipment, internship, and apprenticeship opportunities for students, serving as guest speakers, and committing to give highest consideration for employment to program graduates.

Currently, thirteen institutions offer similar programs. Below are the colleges, programs, total number of concentrators, total number of graduates, total number of graduates exiting the higher education system and employed, and average wage of graduates who exited the higher education system and are employed information from the 2019 K-TIP report.

Kansas Training Information Program				
2020 K-TIP Data for Early Childhood Education				
College	Total # Concentrators	Total # Graduates	Total # Graduates & Employed	Average Wage: Graduates Exited & Employed
Allen Community College (19.0708)	7	5	*	*
Barton Community College (19.0708)	26	7	5	\$28,918
Butler Community College (19.0708)	47	11	*	*
Cloud County Community College (19.0708)	NR	NR	NR	NR
Cowley County Community College (19.0708)	23	11	6	\$25,580
Dodge City Community College (19.0708)	10	7	*	*
Garden City Community College (19.0709)	New program in AY22			

Highland Community College (19.0708)	*	*	*	*
Hutchinson Community College (19.0708)	8	5	*	*
Independence Community College (19.0708)	*	*	*	*
Johnson County Community College (19.0708)	NR	NR	NR	NR
Kansas City Kansas Community College (19.0708)	19	5	*	\$15,168
Salina Area Technical College	New program in AY22			
Washburn Institute of Technology (19.0709)	28	12	6	*
Total	140	63	17	

Northwest Kansas Technical College did reach out to Janet Davidson at Cowley Community College to seek input and advice regarding the program. Further collaboration was not pursued; however, will be should the need arise.

The college plans to begin the proposed Child Care Specialist program in the fall of 2022. The college estimates the initial cost of the proposed program at approximately \$64,000 (\$55,000 salaries, \$2,000 equipment, \$5,000 instructional supplies, and \$2,000 technology and software). The program will be offered solely online, which considerably reduces the overall costs. Faculty salary, equipment, instructional supplies, and technology will be funded through the college's general fund. Northwest Kansas Technical College annually budgets for new program development. Lisa Blair, Dean of Academic Advancement, will assume responsibility for the proposed program.

The proposed program was subject to the 10-day comment period from November 1, 2021, to November 12, 2021 during which no formal comments were received.

### **Recommendation**

The new program request submitted by Northwest Kansas Technical College for a Technical Certificate A at 16-credit hours, Technical Certificate B at 32-credit hours, and Associate of Applied Science degree at 62-credit hours in Child Care Specialist has been reviewed by the Program and Curriculum Committee and is recommended for approval by the Technical Education Authority.

**Northwest Kansas Technical College** requests approval of the following program:

- Plumbing Technology (46.0503) – Technical Certificate A/28 credit hours, Technical Certificate C/52 credit hours, and Associate of Applied Science degree/67 credit hours

According to the U.S. Department of Education, CIP Code 46.0503 Plumbing Technology/Plumber is defined as a program that prepares individuals to apply technical knowledge and skills to lay out, assemble, install, and maintain piping fixtures and systems for steam, natural gas, oil, hot water, heating, cooling, drainage, lubricating, sprinkling, and industrial processing systems in home and business environments. Program curriculum includes instruction in source determination, water distribution, waste removal, pressure adjustment, basic physics, technical mathematics, blueprint reading, pipe installation, pumps, welding and soldering, plumbing inspection, and applicable codes and standards.

Cross-walking the proposed CIP Code (46.0503 Plumbing Technology/Plumber) to occupations resulted in one standard occupation classification code (SOC Code), 47-2152 Plumbers, Pipefitters, and Steamfitters. The occupation is defined as an employee who assembles, installs, alters, and repairs pipelines or pipe systems that carry water, steam, air, or other liquids or gases. Plumbers may install heating and cooling equipment and mechanical controls including sprinkler fittings.

The proposed program consists of three exit points, a 28-credit hour Technical Certificate A, a 52-credit hour Technical Certificate C, and a 67-credit hour Associate of Applied Science degree. Upon completion, students would be eligible for Level 1, Level 2, Level 3, and Level 4 Plumbing certifications offered through the National Center for Construction Education and Research.

The Kansas Department of Labor Long-term Occupation Projections 2018-2028 indicate a statewide change of employment for Plumbers, Pipefitters, and Steamfitters of 6.1% with an annual median wage of \$56,810 with a high school diploma or equivalent as the typical education needed for entry. Annual openings equate to 619 jobs per year. Plumbing was not included in the 2019 Perkins Comprehensive Local Needs Assessment; however, will appear in the updated 2022 version.

Emsi job posting analytics show that from October 2020 to October 2021, 2,441 total postings (667 unique postings) were advertised statewide with a median advertised salary of \$25.05 per hour (\$52,104 per year).

Four letters of support for the proposed program were received from Sherman County Community Development, McClure Plumbing and Heating, Dennis Howard, and Gove County Economic Development. Supports and commitments for the program include serving on the local advisory board, assisting student's connection with local employers, serving as guest speakers, providing scholarships, donation of equipment and materials, providing internships and apprenticeship opportunities, and job placement for program completers.

Currently, two programs exist statewide at Barton Community College and Johnson County Community College. Barton Community College's program was approved to be offered outside the correctional facility starting in the spring of 2022. In the past three years, the college reports that 56 students graduated the program in the correctional setting. Johnson County Community College's program began in AY21 which does not yet provide sufficient data for the K-TIP report.

Northwest Kansas Technical College did reach out to Dr. Kathleen Kottas at Barton Community College and Dr. Howard Hendren at Johnson County Community College to provide insight, guidance, and tips for program development. The college has also worked with Robert Chitty of North Central Kansas Technical College to discuss programs at Beloit and Hays to visit their facilities. Further collaboration was not pursued; however, will be should the need arise.

Northwest Kansas Technical College plans to begin the proposed Plumbing program in the fall of 2022. The college estimates the initial cost of the proposed program at approximately \$281,650 (\$61,650 salaries, \$150,000 equipment, \$50,000 tools and supplies, \$5,000 instructional supplies and materials, \$10,000 facility requirements, and \$5,000 technology and software). The program will be housed in approximately 1,200 square feet of classroom and lab space in the same building as the college's Carpentry program. All costs for the new program will be funded through the Congressionally Directed Spending Request, Maintenance of Effort, Carl D. Perkins funds, and industry donations. Lisa Blair, Dean of Academic Advancement, will assume responsibility for the proposed program.

The proposed program was subject to the 10-day comment period from September 27, 2021, to October 8, 2021 during which no formal comments were received.

### **Recommendation**

The new program request submitted by Northwest Kansas Technical College for a Technical Certificate A at 28-credit hours, Technical Certificate C at 52-credit hours, and Associate of Applied Science degree at 67-credit hours in Plumbing Technology has been reviewed by the Program and Curriculum Committee and is recommended for approval by the Technical Education Authority.

**Washburn Institute of Technology** requests approval of the following program:

- Industrial Production Technology (47.0409) – Technical Certificate B/30 credit hours

According to the U.S. Department of Education, CIP Code 47.0409 Parts and Warehousing Operations and Maintenance Technology is defined as a program that prepares individuals to apply technical knowledge and skills to maintain inventory control, care for inventory, and make minor repairs to warehouse equipment.

Cross-walking the proposed CIP Code (47.0409 Parts and Warehousing Operations and Maintenance Technology) to occupations resulted in one standard occupation classification code (SOC Code), 49-9099 Installation, Maintenance, and Repair Workers. The occupation is defined as an employee who assembles, installs and maintains equipment.

The Industrial Production Technology program was developed by the college, business and industry, and the Kansas Department of Corrections as a way to bridge training and workforce gaps by connecting the college's Certified Production Technician and Industrial Maintenance Mechanic programs. The program will initially be housed at the all-female correctional facility (Topeka Correctional Facility) and Washburn Tech's East Campus. Students will receive both Career Technical Education and Adult Education training.

The proposed program consists of one exit point, a 30-credit hour Technical Certificate B. Upon completion, students would be eligible for the Certified Production Technician certification offered through the Manufacturing Skills Standard Council.

The Kansas Department of Labor Long-term Occupation Projections 2018-2028 indicate a statewide change of employment for Installation, Maintenance, and Repair Workers of 7.2% with an annual median wage of \$38,070 with a high school diploma or equivalent as the typical education needed for entry. Annual openings equate to 169 jobs per year. According to the Perkins Comprehensive Local Needs Assessment, there are an average of 118 job openings and only 48.5 concentrators.

Emsi job posting analytics show that from August 2020 to August 2021, 587 total postings (127 unique postings) were advertised statewide with a median advertised salary of \$17.05 per hour (\$35,464 per year).

Four letters of support for the proposed program were received from Reser's Fine Foods, Mars Wrigley, J.M. Smucker Company, and the Kansas Department of Corrections. Supports and commitments for the program include serving on the local advisory committee, serving as a guest speaker, donation of equipment, donation of supplies, providing internship opportunities, participating in Washburn Institute of Technology's Job Fair, and a commitment to hire program graduates.

Currently, there are no Industrial Production Technology state funded programs.

Washburn Institute of Technology plans to begin the proposed program in the spring of 2022. The college estimates the initial cost of the proposed program at approximately \$148,658 (\$33,073 salaries, \$108,085 equipment, \$5,000 instructional supplies, and materials, and \$2,500 technology and software). All costs for the new program will be funded through the reallocation of general fund dollars, Maintenance of Effort, and Carl D. Perkins funds. Existing space and equipment at the Topeka Correctional Facility will be utilized. Chaz Havens, Director of Academic Sites and Initiatives, will assume responsibility for the proposed program.

The proposed program was subject to the 10-day comment period from November 1, 2021, to November 12, 2021 during which no formal comments were received.

## **Recommendation**

The new program request submitted by Washburn Institute of Technology for a Technical Certificate B at 30-credit hours in Industrial Production Technology has been reviewed by the Program and Curriculum Committee and is recommended for approval by the Technical Education Authority.

**Wichita State University Campus of Applied Sciences and Technology (WSU Tech)** requests approval of the following program:

- Manufacturing Technology (15.0613) – Technical Certificate A/24 credit hours, Technical Certificate B/33 credit hours, Technical Certificate C/53 credit hours, and Associate of Applied Science degree/65 credit hours

According to the U.S. Department of Education, CIP Code 15.0613 Manufacturing Engineering Technology is defined as a program that prepares individuals to apply basic engineering principles and technical skills to the identification and resolution of production problems in the manufacture of products. Curriculum includes instruction in machine operations, production line operations, engineering analysis, systems analysis, instrumentation, physical controls, automation, computer-aided manufacturing (CAM), manufacturing planning, quality control, and informational infrastructure.

Cross-walking the proposed CIP Code (15.0613 Manufacturing Engineering Technology) to occupations resulted in one standard occupation classification code (SOC Code), 17-3026 Industrial Engineering Technicians. The occupation is defined as an employee who applies engineering theory and principles to problems of industrial layout or manufacturing production, usually under the direction of engineering staff. The employee may perform time and motion studies on worker operations in a variety of industries for purposes such as establishing standard production rates or improving efficiency.

The proposed Manufacturing Technology program entered the idea conception and research phase during the Fall of 2020 based on conversations between Vice President of Manufacturing and Aviation (Dr. Scott Lucas) and members of the Wichita Manufacturer's Association, industry interactions, and multiple WSU Tech Industry Advocate Teams (IAT). These conversations, plus research into relevant industry trends, indicated that the manufacturing sector in the United States has been showing signs of a shift toward what is known as Industry 4.0 skills (Smart factories, automation Industrial Internet of Things IIoT). The onset of the Covid- 19 pandemic has hastened the shift across the sector as employers work to ensure they have end to end supply chain management and fast track automation programs to address working shortages. Through the spring and summer of 2021, additional research completed for a potential grant and collaboration opportunity indicated that while there is the growing demand for advanced manufacturing jobs and the move towards Industry 4.0 careers and options in automation by local business and industry, there is also a consistent and concrete need for entry-level workforce in manufacturing.

The proposed program consists of four exit points, a 24-credit hour Technical Certificate A, a 33-credit hour Technical Certificate B, a 53-credit hour Technical Certificate C, and a 65-credit hour Associate of Applied Science degree. Upon completion, students would be eligible for several industry certifications such as:

- OSHA 1910.178 Forklift Operator
- OSHA/Safety 10
- NC3 Certifications in Precision Measuring Instruments (Tape and Rule Measurement, Slide Caliper Measurement, Gauge Measurement, Angle Measurement, Micrometer Measurement, Dial Gauge Measurement)
- NC3 Torque Electrical and Mechanical
- MC3 Meter-525

The Kansas Department of Labor Long-term Occupation Projections 2018-2028 indicate a statewide change of employment for Industrial Engineering Technicians of 3.4% with an annual median wage of \$50,330 with an Associate’s degree as the typical education needed for entry. Annual openings equate to 61 jobs per year. According to the Perkins Comprehensive Local Needs Assessment, there is a 95% gap between labor demand and postsecondary concentrators.

Emsi job posting analytics show that from October 2020 to October 2021, 5,379 total postings (1,044 unique postings) were advertised statewide with a median advertised salary of \$19.51 per hour (\$40,580 per year).

Six letters of support for the proposed program were received from Ryan Altendorf, Cox Machines, Inc., Ferrology, Inc., Goodwill Industries of Kansas, Inc., Lincoln Electric, Wichita Public Schools, and Kansas-Oklahoma Machine Tools. Supports and commitments for the program include serving on the local advisory committee, providing up-to-date job descriptions and credential requirements, providing employment details (hiring requirements, trends, changes) providing guaranteed interviews for program graduates, providing constructive feedback to interviewed graduates, donations to WSU Tech labs, and hosting students for applied learning activities.

Currently, four institutions offer similar programs. Below are the colleges, programs, total number of concentrators, total number of graduates, total number of graduates exiting the higher education system and employed, and average wage of graduates who exited the higher education system and are employed information from the 2020 K-TIP report.

Kansas Training Information Program				
2020 K-TIP Data for Manufacturing Engineering Technology				
College	Total # Concentrators	Total # Graduates	Total # Graduates Exiting & Employed	Average Wage: Graduates Exited & Employed
Barton Community College	NR	NR	NR	NR
Butler Community College	Phased Out			
Flint Hills Technical College	16	7	*	*
Hutchinson Community College	31	10	9	\$51,946
Washburn Institute of Technology	53	53	34	\$33,256
Total	100	70	43	

WSU Tech did not seek collaboration with existing programs citing work with the local USD and creating pathway options.

The college plans to begin the proposed Manufacturing Technology program in the fall of 2022. The college estimates the initial cost of the proposed program at approximately \$143,000 (\$65,000 salaries, \$53,000 equipment, \$10,000 instructional supplies and materials, and \$15,000 marketing). The program will be housed at the National Center for Aviation Training campus. Faculty salary costs will be funded through a City of Wichita grant. Equipment, instructional supplies and materials, and facility costs will be funded through institutional dollars that have been set aside for new program development. Marketing costs will be funded through the institution’s general budget for the Marketing department. James Hall, Dean of Aviation and Manufacturing, will assume responsibility for the proposed program.

The proposed program was subject to the 10-day comment period from November 1, 2021, to November 12, 2021 during which no formal comments were received.

### **Recommendation**

The new program request submitted by Wichita State University Campus of Applied Sciences and Technology for a Technical Certificate A at 24-credit hours, Technical Certificate B at 33-credit hours, Technical Certificate C at 53-credit hours, and Associate of Applied Science degree at 65-credit hours in Manufacturing Technology has been reviewed by the Program and Curriculum Committee and is recommended for approval by the Technical Education Authority.

**Wichita State University Campus of Applied Sciences and Technology (WSU Tech)** requests approval of the following program:

- Registered Nursing (51.3801) – Associate of Applied Science degree/65 credit hours

According to the U.S. Department of Education, CIP Code 51.3801 Registered Nursing is defined as a program that prepares individuals in the knowledge, techniques, and procedures for promoting health, providing care for sick, disabled, infirmed, or other individuals or groups. Curriculum includes instruction in the administration of medication and treatments, assisting a physician during treatments and examinations, referring patients to physicians and other health care specialists, and planning education for health maintenance.

Cross-walking the proposed CIP Code (51.3801 Registered Nursing) to occupations resulted in one standard occupation classification code (SOC Code), 29-1141 Registered Nurse. The occupation is defined as an employee who assesses patient health problems, develops, and implements nursing care plans, maintains medical records, administers nursing care to ill, injured, convalescent, or disabled patients and may advise patients on health maintenance and disease prevention or provide case management. Licensing or registration is required.

The proposed Registered Nurse program entered the idea conception and research phase in the late fall of 2019. WSU Tech hosted a meeting of health professionals in the Wichita region. The meeting goals included the review of immediate and future employment needs across the full spectrum of health care professions and a review of how WSU Tech could help maintain a robust pipeline of health care graduates. During this meeting, representatives from local health care employers discussed the need for a two-year RN program in Sedgwick County to meet the expected demand for nurses in the region. Julianna Rieschick from Ascension/St Joseph requested that Dr. Utash (President of WSU Tech) pursue an Associate of Nursing degree at WSU Tech. With a clear indication of interest in the program from potential employers, WSU Tech moved forward with initial research and benchmarking by the Academic Services Department. The onset of the COVID 19 pandemic delayed the development timeframe, however, by the summer of 2020 and into Fall of 2020, WSU Tech completed a scan of employment data sources, including Kansas Department of Labor's Long-Term Occupational Outlook and JOBSeQ data, and completed a survey of potential students.

With positive results from all research sources, WSU Tech decided to move forward and provided financial resources from the new program development budget to support the full crosswalk of similar programs and the first level of curriculum design. This process included a team of faculty from the nursing program led by the Associate Dean of Nursing working with a consultant group (ATI). The team worked through the spring and summer of 2021 to determine the curriculum design structure; during this same period, the Nursing Department leadership connected with the Kansas Board of Nursing concerning program approval requirements and timeline. In addition, throughout AY 20/21, the Nursing department leadership met monthly with the Dean of Academic Services to prepare for internal and external approval. These preparations included final curriculum design and course development, program finances, Industry Advocate curriculum review/approval, internal review/approval from multiple departments including finance, student services, registrar, marketing, institutional research, and finally preparation for submission to KBOR.

The proposed program consists of one exit point, a 65-credit hour Associate of Applied Science degree. Upon completion, students would be eligible for the NCLEX: Registered Nurse exam.

The Kansas Department of Labor Long-term Occupation Projections 2018-2028 indicate a statewide change of employment for Registered Nurses of 8.1% with an annual median wage of \$60,800 with a Bachelor’s degree as the typical education needed for entry. Annual openings equate to 1,965 jobs per year. According to the Perkins Comprehensive Local Needs Assessment, there will be an 81% gap between the existing workforce and the need for employees between 2020-2025.

Emsi job posting analytics show that from October 2020 to October 2021, 242,161 total postings (47,999 unique postings) were advertised statewide with a median advertised salary of \$47.38 per hour.

Four letters of support for the proposed program were received from the Department of Veteran Affairs, Craig Home Care, NMC Health, and Kansas Masonic Home. Supports and commitments for the program include serving on the local advisory board and serving as a clinical site location. An additional letter of support was received from Wichita State University’s School of Nursing.

Currently, nineteen institutions offer similar programs. Below are the colleges, programs, total number of concentrators, total number of graduates, total number of graduates exiting the higher education system and employed, and average wage of graduates who exited the higher education system and are employed information from the 2020 K-TIP report.

Kansas Training Information Program

WSU Tech is currently engaged in the process of seeking program approval from the Kansas Board of Nursing. The application was submitted on 10/13/2021. Program leadership expects a site visit to be scheduled for February of 2022 with presentation of the results and program approval to occur by March 30, 2022. WSU Tech will also seek national accreditation with the Commission for Nursing Education Accreditation (NLN). The costs (\$3345.00) associated with this accreditation will be funded in year one by Program Development funds. WSU Tech plans to begin the proposed Registered Nursing program in the fall of 2022. The college estimates the initial cost of the proposed program at approximately \$405,130 (\$135,000 salaries, \$130,687 equipment, \$15,600 instructional supplies and materials, \$100,000 in facility requirements, \$20,498 technology and software, and \$3,345 accreditation fees). The Registered Nursing program will be housed at the WSU Tech South Campus. Three spaces (over 2,500 square feet) have been set aside for classroom, clinical, and lab space. Program Director and faculty salaries, equipment, instructional supplies and technology and software will be funded through institutional dollars that have been set aside for new program development. Facility renovations will be funded through Capital Outlay. Pat Plank, Associate Dean of Nursing, will assume responsibility for the proposed program.

The proposed program was subject to the 10-day comment period from November 1, 2021, to November 12, 2021 during which no formal comments were received.

**Recommendation**

The new program request submitted by Wichita State University Campus of Applied Sciences and Technology for an Associate of Applied Science degree at 65-credit hours in Registered Nursing has been reviewed by the Program and Curriculum Committee and is recommended for approval by the Technical Education Authority contingent on the Commission for Nursing Education Accreditation and Kansas Board of Nursing approval.

## Excel in Career Technical Education (CTE) Fees

### Summary

*Per statute (K.S.A. 72-3810), the Kansas Board of Regents shall establish general guidelines for tuition and fee schedules in career technical education courses and programs. The Excel in CTE tuition and fee schedule of every technical education program shall be subject to annual approval.*

12/2/2021

### Background

K.S.A 72-3810 states:

“All tuition and fees charged for career technical education by any board shall be in such amounts as are authorized by rules and regulations adopted by the state board which shall establish general guidelines for tuition and fee schedules in career technical education courses and programs. The particular tuition and fee schedule of every career technical education program shall be subject to annual approval of the state board. A current complete schedule of tuition and fees for each career technical education course and program of each board as approved by the state board shall be maintained on file in the office of the state board and shall be open for public inspection at any reasonable time.”

"Fees means those charges assessed against a student by a community college, technical college or the institute of technology for student services, such as health clinics, athletic activities and technology services, or for books, supplies or other materials necessary for a particular course or program, the expense of which is not covered by tuition.”

"Tuition means those charges assessed against a student by a community college, technical college or the institute of technology on a per credit hour, per course or per term basis, and that are charged to cover the general expense of providing instructional services.”

As per the Postsecondary Technical Education Authority’s (TEA) request, on Thursday, December 19, 2019, representatives from community colleges, technical colleges, and Board staff met to set guidelines for fees associated with Excel in CTE courses and programs. As a result of this meeting, agreed upon allowable fees include items/services students take with them and industry-specific fees required for entrance/acceptance into the program.

#### Allowable fees include:

- Uniforms
- Personal protective equipment
- Background checks
- Fingerprints
- Drug tests
- E-subscriptions/E-books
- Textbooks
- Certification tests
- Liability insurance (example: student malpractice)
- Graduation fees (if applicable)
- Transcript fees (if applicable)

#### Unallowable fees include:

- Student fees (general)
- Technology fees
- Health fees
- Consumables
- Any other fee not on the allowable list

Non-tiered courses - per statute (K.S.A. 71-1802) a technical program is defined as a “program of study comprised of a sequence of tiered technical courses and non-tiered courses, which is identified by the state board as a technical program for funding purposes.” For this reason, students enrolled in technical programs may take non-tiered courses and are responsible for all associated tuition and fees.

### Recommendation

The new program Excel in CTE fees below have been reviewed by the Program and Curriculum Committee and are recommended for approval by the Technical Education Authority:

- Northwest Kansas Technical College: Child Care Specialist Excel in CTE fees total \$30. Fees are for a background check required for childcare providers.

- Northwest Kansas Technical College: Plumbing Excel in CTE fees total \$979.95. Fees are for tools, personal protective equipment, NCCER exam fees, and textbooks.
- Washburn Institute of Technology: Industrial Production Technology Excel in CTE fees total \$846. Fees are for uniforms, personal protective equipment, and MSSC certification fees.
- Wichita State University Campus of Applied Sciences and Technology: Manufacturing Technology Excel in CTE fees total \$180. Fees are for textbooks and the non-tiered course Blueprint for Personal Success.

## Act on programs eligible for the Kansas Promise Scholarship Act

### Summary

*The Kansas Legislature enacted the Kansas Promise Scholarship Act (Promise Scholarship) which would provide scholarships for students to attend an eligible postsecondary education institution. Eligible programs would be any two-year associate degree program, career and technical education certificate, or stand-alone program that fall into the four fields of study prescribed. It also allows each eligible institution to designate one additional program outside the specified fields that corresponds to a high wage, high demand, or critical need occupation. 12/2/2021*

### Background

On April 23, 2021, Governor Kelly signed [House Bill 2064](#), the Kansas Promise Scholarship Act. The Act provides \$10 million in scholarships for students to enroll in eligible programs at eligible institutions beginning academic year 2022, or July 1, 2021.

The Act also states that the Board of Regents will administer the program. Administration is broken into three categories: Rules and Regulations, Eligible Programs, and Other Responsibilities. The Kansas Postsecondary Technical Education Authority is delegated the approval of eligible programs. The Act (section 2) identifies eligible programs as any of the following fields of study:

- Advanced Manufacturing and Building Trades
- Early Childhood Education and Development
- Mental and Physical Healthcare
- Information Technology and Security

The Act (section 3) also states that “an eligible postsecondary institution may designate one additional promise eligible program if the additional program is a two-year associate degree program or a career and technical education certificate or stand-alone program that corresponds to a high wage, high demand, or critical need occupation.”

### Recommendation

The following programs are seeking approval to become Promise Eligible programs. Programs have been reviewed by the Program and Curriculum Committee and are recommended for approval by the Technical Education Authority:

- Northwest Kansas Technical College: Child Care Specialist which falls under the Early Childhood Education and Development category which is specified in legislation.
- Northwest Kansas Technical College: Plumbing Technology which falls under the Advanced Manufacturing and Building Trades category which is specified in legislation.
- Washburn Institute of Technology: Industrial Production Technology which falls under the Advanced Manufacturing and Building Trades category which is specified in legislation.
- Wichita State University Campus of Applied Sciences and Technology: Manufacturing Technology which falls under the Advanced Manufacturing and Building Trades category which is specified in legislation.
- Wichita State University Campus of Applied Sciences and Technology: Registered Nurse which falls under the Mental and Physical Healthcare category which is specified in legislation.

## Distributions for FY2022 State Safety Funds

### Summary and Staff Recommendation

**Purpose:** *The Kansas Safety Fund was established per K.S.A. 8-267 and 8-272, and (in addition to other driver's education programs) provides for the distribution of those funds to 1. community colleges conducting approved courses in motorcycle safety, and 2. to Commercial Driver (CDL) Training Programs at community and technical colleges. These funds are available on an annual basis from driver's license fees and distributed to institutions based on the number of students completing their programs and passing examination.*

**Eligible Institutions:** *Public postsecondary career technical institutions delivering approved courses in motorcycle safety, and Commercial Driver Training technical education programs in Kansas reporting in the KHEDS data system.*

*12/2/2021*

### Commercial Driver Training Participating Institutions, and Allocations:

#### Purpose of the Funds

Provide additional funding to institutions providing training for Commercial Driver Training. Institutions reporting a Commercial Driver training program in the Kansas Higher Education Data System are contacted to provide student names, dates of training, and dates of licensure testing for the fund.

**FY22 Available Fee Funds \$157,143**

Institution	# of students	Amount paid per student	Allocation per Institution
Seward County Community College	26	\$850	\$22,100
Northwest Kansas Technical College	3	\$850	\$2,550
Salina Area Technical College	15	\$850	\$12,750
Barton Community College	12	\$850	\$10,200
Dodge City Community College	36	\$850	\$30,600
<b>TOTAL</b>	<b>92</b>		<b>\$78,200</b>

### Motorcycle Safety Participating Institutions, and Allocations:

#### Purpose of the Funds

Provide additional funding to institutions providing approved courses in motorcycle safety. Institutions providing the training courses are contacted by KSDE, and KSDE provides a total headcount and dollar amount per institution for distribution of the fund from KBOR.

**FY22 Available Fee Funds \$86,400**

Institution	Headcount	Allocation per Institution
Butler Community College	48	\$3,840
Hutchinson Community College	269	\$21,520
Johnson County Community College	548	\$43,840
Kansas City Kansas Community College	215	\$17,200
<b>TOTAL</b>	<b>1,080</b>	<b>\$86,400</b>

KBOR staff have reviewed the data provided, and distributions have been made per statute. This data is provided for information purposes.

## Excel in Career Technical Education (CTE) Fees

### Summary

*Per statute (K.S.A. 72-3810), the Kansas Board of Regents shall establish general guidelines for tuition and fee schedules in career technical education courses and programs. The Excel in CTE tuition and fee schedule of every technical education program shall be subject to annual approval.*

### Background

K.S.A 72-3810 states:

“All tuition and fees charged for career technical education by any board shall be in such amounts as are authorized by rules and regulations adopted by the state board which shall establish general guidelines for tuition and fee schedules in career technical education courses and programs. The tuition and fee schedule of every career technical education program shall be subject to annual approval of the state board. A current complete schedule of tuition and fees for each career technical education course and program of each board as approved by the state board shall be maintained on file in the office of the state board and shall be open for public inspection at any reasonable time.”

"Fees means those charges assessed against a student by a community college, technical college or the institute of technology for student services, such as health clinics, athletic activities and technology services, or for books, supplies or other materials necessary for a particular course or program, the expense of which is not covered by tuition.”

Non-tiered courses - per statute (K.S.A. 71-1802) a technical program is defined as a “program of study comprised of a sequence of tiered technical courses and non-tiered courses, which is identified by the state board as a technical program for funding purposes.” For this reason, students enrolled in technical programs may take non-tiered courses and are responsible for all associated tuition and fees.

As per the Postsecondary Technical Education Authority’s (TEA) request, guidelines for fees associated with Tiered Excel in CTE courses and technical programs were set in December 2019 by representatives from community colleges, technical colleges, and Board staff. Agreed upon allowable fees includes items/services students take with them and industry-specific fees required for entrance/acceptance into the program, which the TEA approved in February 2020.

#### Allowable fees include:

- Uniforms
- Personal protective equipment
- Background checks
- Fingerprints
- Drug tests
- E-subscriptions/E-books
- Textbooks
- Tools/Equipment the student takes with them
- Certification tests
- Liability insurance (example: student malpractice)
- Graduation fees (if applicable)
- Transcript fees (if applicable)

#### Unallowable fees include:

- Student fees (general)
- Technology fees
- Health fees
- Consumables
- Rental or maintenance of Tools/Equipment
- Any other fee not on the allowable list

As required in the statute, this annual review of Excel in CTE Fees will cover all changes in fees charged and all additional fees for each institution. To expedite your review, only the changes to each institution’s Excel in CTE Fees are presented in the spreadsheet.

## **Legislative Update**

### **Summary**

*The Technical Education Authority (TEA) will receive a brief legislative update.*

*12/2/2021*

### **Intent**

Director Casey will provide the TEA with a legislative update.

## January TEA Meeting

### Summary

*With the cancellation of this year's Mid-America Workforce Summit due to COVID-19 concerns, staff needs direction from the TEA about where and when they would like the January TEA meeting held.*

*12/2/2021*

### Intent

Due to uncertainty with COVID-19, the decision has been made to cancel this year's Mid-America Workforce Summit. This means that the TEA will no longer be meeting at the Hotel Topeka at City Center for the January 19<sup>th</sup> scheduled face-to-face meeting.

Due to the Board also meeting on 19<sup>th</sup> of January, the normal KBOR board meeting room is not available.

A couple of options the TEA might consider for the January meeting are:

- Changing the meeting on the 19<sup>th</sup> to a virtual meeting
- Changing the meeting date to the 27<sup>th</sup> and make it either a virtual or face-to-face meeting

KBOR staff needs to know how and when the TEA would like to meet in January so that arrangements can be made.

## **TEA FY 2021 Legislative Report**

### **Summary**

*The Technical Education Authority is required by statute to annually file a report with the Legislature summarizing their activities from the previous year.* 12/2/2021

### **Intent**

At the beginning of each legislative session, the TEA is required to file a report with the legislature summarizing actions the TEA has taken in the previous year. A copy of the proposed report is attached for the member review and approval.

# **POSTSECONDARY TECHNICAL EDUCATION AUTHORITY (TEA) FY 2021 SUMMARY REPORT**

November 2021

## POSTSECONDARY TECHNICAL EDUCATION AUTHORITY (TEA) FY 2021 SUMMARY INFORMATION

The purpose of this report is to fulfill the reporting requirements of the Postsecondary Technical Education Authority (TEA) per K.S.A. 74-32,402(a)(12).

The TEA was initially created and empowered in the 2007 Legislative Session in Sections 1 through 4 of House Bill 2556 (codified at K.S.A. 74-32,401 through 74-32,404) and was renewed without a sunset in 2019 via SB 71. The TEA consists of twelve members with nine members appointed from across the state and one *ex officio* member assigned from the Departments of Education, Commerce, and Labor. The TEA's purpose is to work under the auspices of the Kansas Board of Regents (Board) and to make recommendations to the Board regarding the coordination, statewide planning and improvements to the postsecondary technical education system.

In FY 2021, the full TEA met nine times with three face-to-face meetings held in Topeka and six meetings held virtually or by phone. In addition to the regular TEA meetings, separate committee meetings (Budget & Finance, Advocacy & Marketing, and Programs & Curriculum) were held virtually or by phone on an as-needed basis. As part of the TEA's responsibilities, during the past year, the TEA:

- Evaluated twenty-one Career and Technical Education (CTE) programs and recommended twenty for approval (K.S.A. 71-1802);
- Reviewed and recommended grants for the Kansas Nursing Initiative, Kansas Innovative Technology & Internship program, Motorcycle Safety Fund, Commercial Driver's License Training program, and Carl D. Perkins program;
- Reviewed and approved Excel in CTE student fees (per K.S.A. 72-3810);
- Reviewed and recommended to the Board federal fund distributions;
- Supported and encouraged the expansion of micro-internships;
- Continued with the extraordinary cost review and approval process for the state approved CTE programs;
- Approved updated program alignments for the Welding Technology program and the Automotive Collision and Refinishing Technology program;
- Reviewed and approved updated AO-K to Work (K.S.A. 76-731a) credentials and pathways;
- Supported expansion of the Accelerating Opportunity: Kansas@Work program;
- Reviewed the 2019 Kansas Training Information Program (KTIP) report (K.S.A. 74-32,418);
- Reviewed federal Carl D. Perkins and Adult Education funding distributions and performance;
- Advocated for Excel in CTE and two-year college funding;
- Approved the new Adult Education provider awards;
- Supported the Build Something New CTE marketing campaign;
- Reviewed the GAP analysis and impact of re-centering state funding among the institutions;
- Approved the updated requirements for an Associate of Applied Science (AAS) in Applied Technologies degree;
- Reviewed the 2021-2022 Excel in CTE Qualifying Credentials; and
- Reviewed and recommended the two-year college funding distributions for FY 2021.

The TEA continues to work on a variety of programs and initiatives in support of career and technical education programs throughout Kansas.

Please contact the Kansas Board of Regents office with any questions regarding the TEA.
