1 Number of Test Takers for an institution reflects the number of candidates who sent scores to that institution at the time of testing. Number of Test Takers for a system or state reflects the number of candidates who sent scores to any institution in that system or state at the time of testing. Not all candidates opt to send their scores at the time of testing; any scores sent at a later date are not included in this report.

2 Number of Exam Scores Sent includes scores sent by candidates at the time of testing; it does not include scores sent at a later date. The number of exam scores sent is often greater than the number of test takers because individual candidates may take more than one test.

3 The American Council on Education (ACE) recommends that institutions grant credit for scores of 50 or higher.
