

Question	Answer
<p>In your Blended format, is the online 060 or 101? (Regarding Butler Community College's blended English Comp I with Corequisite Support.)</p>	<p>The 060 portion of the course is online.</p>
<p>If the corequisite section is separate (and is graded separately) from the English Composition I section, and the student fails the corequisite section but not the English Comp I section, do you let the student proceed to English Composition II?</p>	<p>At GCCC, if you fail the companion course you can still move on if you pass English I. At FHSU, if they pass ENG 101, they move on--but they do receive two different grades for 101 and the co-req. At WSU, the students receive one grade for the lab and the lecture. Per KBOR, policy doesn't specifically address this but if the student passes the gateway course, it stands to reason the student would be allowed to proceed to the next level course.</p>
