## ***Macroeconomics-ECO1020* CORE OUTCOMES**

Upon completion of the above listed course, students will be able to do the following:

1. Explain the economic way of thinking by applying the following: scarcity, specialization, opportunity cost, marginal analysis, and production possibility.
2. Apply the supply and demand model for economic analysis.
3. Define the key macroeconomic indicators used to measure the performance of the aggregate economy including output, price level, and employment.
4. Utilize the aggregate demand and aggregate supply model to explain the amount of goods/services produced, the level of unemployment, and price level.
5. Define fiscal policy, budget deficits, and the national debt and explain their impact on the macroeconomy.
6. Define money, banking, and monetary policy and explain their impact on the macroeconomy.
