

STATE UNIVERSITY DATA BOOK

January 2021

KANSAS BOARD OF REGENTS

MEMO

TO: Kansas Board of Regents

FROM: Elaine Frisbie
Vice President for Finance and Administration

RE: **STATE UNIVERSITY DATA BOOK, January 2021**

Enclosed is the recently completed State University Data Book. Board staff has produced this document since 1993 with the assistance of the state universities. It is designed to provide a ready reference of tabular data concerning key facts about the state universities governed by the Board. Additionally, to further assist in defining frequently used budgetary and demographic terms, a glossary of terms is provided at the end of the book.

By 1863, the Kansas Legislature had created the first public university, Kansas State Normal School, now Emporia State University. Later that year, the University, known today as The University of Kansas, was established and the Agricultural College, now known as Kansas State University, was created. In 1900, federal legislation provided abandoned military reservation land at Fort Hays for a school now known as Fort Hays State University. In 1903, the Kansas Legislature created the Normal Training Auxiliary of the Emporia Normal School in Pittsburg now known as Pittsburg State University. In 1886, Fairmount College of Wichita, a college affiliated with the Congregational Church, opened its doors. In 1926 the school became the Municipal University of Wichita, and it was brought under the Board of Regents in 1964 as Wichita State University, bringing the number of universities governed by the Board to six.

Organization

The State University Data Book is organized in six sections: Finance; Tuition and Fees; Students; Faculty and Staff; Facilities; and Institutional Profiles. At the end of each section, the reader will find relevant explanatory notes for various tables in that section.

Availability of Data

An electronic version of the Data Book along with copies of each table are made available online by navigating from the agency's main website → Data → System Data → Higher Education Data Books.

Kansas Higher Education Statistics (KHEStats)

KHEStats is a web-based reporting tool for providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly-updated dashboards, graphs and charts. The tool is available by navigating from the agency's main website → Data → KHEStats.

KHEStats reports are generated from data collected by the Kansas Board of Regents from the state's 32 public higher education institutions (six state universities, one municipal university, nineteen community colleges, and six technical colleges). The data collected throughout the year support reporting about enrollments, completions, demographics and other characteristics.

January 2021

Table No.	Title	Page
SECTION 1 - FINANCE		
1.10	Total Operating Expenditures by Fund, State University Totals, Fiscal Year 2015 – 2020	2
1.12	All Funds Operating Expenditures by Program, State University Totals, Fiscal Year 2015 – 2020	4
1.13	General Use Operating Expenditures by Program, State University Totals, Fiscal Year 2015 – 2020	6
1.14	General Use Operating Expenditures by Object, State University Totals, Fiscal Year 2015 – 2020	8
1.30	Total Operating Expenditures by Fund, State Universities, Fiscal Year 2015 – 2020	10
1.32	All Funds Operating Expenditures by Program, State Universities, Fiscal Year 2015 – 2020	12
1.33	General Use Operating Expenditures by Program, State Universities, Fiscal Year 2015 – 2020	14
1.34	General Use Operating Expenditures by Object, State Universities, Fiscal Year 2015 – 2020	16
1.40	Gross General Use Educational Expenditures Per Student Credit Hour and Fall FTE Student, Fiscal Year 2015 – 2020.....	18
	Section 1 Notes.....	19
SECTION 2 - TUITION AND FEES		
2.1a	Undergraduate Resident Tuition and Required Fees, Academic Year 2016 – 2021.....	22
2.1b	Undergraduate Non-resident Tuition and Required Fees, Academic Year 2016 – 2021.....	23
2.1c	Graduate Resident Tuition and Required Fees, Academic Year 2016 – 2021	24
2.1d	Graduate Non-resident Tuition and Required Fees, Academic Year 2016 – 2021	25
2.2	Resident/Non-resident Tuition Rates by Student Level, Academic Year 2021.....	26
2.3	Undergraduate Tuition and Fees Five-Year Comparison, Academic Year 2015 and 2020... ..	27
2.4	Ratio of Tuition Revenues to Educational Costs, Fiscal Year 2015 – 2020	28
2.6	Relationship of Average Resident Tuition Per Semester and Consumer Price Index, 1999 – 2019	29

2.7	Relationship of Average Resident Tuition Per Academic Year and Per Capita Income, 1999 – 2019	30
2.8	Consumer Price Index (CPI-U) and Higher Education Price Index (HEPI), 1999 – 2019	31
	Section 2 Notes.....	32

SECTION 3 - STUDENTS

3.1	Enrollment Headcount by Institution, Fall 2015 – 2020.....	36
3.2	Full-Time Equivalent (FTE) Enrollment by Institution, Fall 2015 – 2020.....	36
3.1a	Enrollment Headcount by Institution, Academic Year 2015 – 2020.....	37
3.2a	Full-Time Equivalent (FTE) Enrollment by Institution, Academic Year 2015 – 2020.....	37
3.3	Demographic Profiles of Students at State Universities, Academic Year 2015 – 2020	38
3.5	Average ACT Composite Scores Among Entering Freshmen, Academic Year 2015 – 2020.....	40
3.6	Degrees and Certificates Conferred at State Universities by Type, Academic Year 2015 – 2020	41
3.6a	Degrees Conferred at State Universities by Institution, Academic Year 2015 – 2020.....	42
3.7	Graduation Rates of First-Time, Full-Time Freshmen, (4, 5, 6 and 8-Year Cohort)	43
3.8	One Year Retention Rate of First-Time, Full-Time Freshmen, Fall 2014 – 2018.....	44
3.81	One Year Retention Rate of First-Time, Full-Time Freshmen by ACT Score, Fall 2018.....	45
3.9	Undergraduate Transfers to State Universities by Institution of Last Attendance, Fall 2019	46
3.10	Student Success Index, Entrance Year 2009 - 2014.....	43
	Section 3 Notes.....	47

SECTION 4 - FACULTY AND STAFF

4.1	Budgeted Positions by Program, Fiscal Year 2021.....	52
4.3	Average Faculty Salaries by Academic Rank, Fiscal Year 2021	54
4.32	Average Faculty Salary Increases by Academic Rank, Continuing Faculty, Fiscal Year 2021	55
4.33	Average Salary Increases, Other Full-Time, Continuing Personnel, Fiscal Year 2021	56
4.34	Summary of Budgeted Salary Increases for Full-Time Continuing Unclassified Personnel, Fiscal Year 2021 Over Fiscal Year 2020	57
4.35	Average Salaries of Instructional Faculty, Compared to Peer Institutions, Fiscal Year 2020.....	58
4.36	Graduate Teaching Assistants by Number and Average Stipend, Fiscal Year 2021.....	59
4.4	State Universities: Faculty by Age, Fiscal Year 2021.....	60

4.5	Tenure Status of Institutional Personnel, Fall 2020	60
4.6	Faculty Resignations, Retirements, and Terminations by Institution, Fiscal Year 2016 – 2020	61
	Section 4 Notes.....	62

SECTION 5 - FACILITIES

5.1	Area and Replacement Cost of Buildings, Fall 2020	66
5.2	Gross Area of Buildings by Condition Value, Fall 2020.....	66
5.25	Gross Area of Buildings by Age, Fall 2020	67
5.3	Utilization Data of Classrooms and Teaching Laboratories, Fall 2020.....	68
	Section 5 Notes.....	69

(NOTE: Facilities information is updated every even year)

Source: Compiled from expenditures in Legislative Budgets, KHEDS AY (credit hours) and Fall Census (FTE) collections

Section I Notes

General Notes:

1. Totals are actual expenditures during each Fiscal Year listed.
2. Due to rounding, numbers may not match other published reports.
3. During FY 2020, each university received funding to address the COVID-19 pandemic. The amounts vary by institution and are included in "other general use" and in restricted use amounts on the Section 1 tables.

Table 1.10: Total Operating Expenditures by Fund

1. Starting in FY 2017, Kansas State University Veterinary Medical Center's "Hospital Revenue Funds" are no longer part of the General Use Expenditures and are now counted in Restricted Use.
2. K-State Research and Extension requested and received permission to re-designate their federal land grant funds from General use to Restricted Use. Due to this reclassification, the other general use funds which were included in the FY 2017 Budget Request Document as the summary by funding source for FY 2015 actuals are not included in the FY 2018 Budget Request Document, which affects the amount used for "Other General Use" on Table 1.10. While this change began with the FY 2017 actual figures, K-State Research and Extension adjusted their FY 2016 actuals to match the new FY 2017 budget structure in this years' operating summary to provide better comparison between the two years.
3. Data in this format for individual institutions is appended as Table B in Institutional Profiles section as follows: KU – pg. 76; KUMC – pg. 86; KSU – pg. 96; KSUVM – pg. 104; KSRE – pg. 110; WSU – pg. 120; ESU – pg. 130; PSU – pg. 140; FHSU – pg. 150.

Table 1.12: All Funds Operating Expenditures by Program

1. Data in this format for individual institutions is appended as Table C in Institutional Profiles section as follows: KU – pg. 77; KUMC – pg. 87; KSU – pg. 97; KSUVM – pg. 105; KSRE – pg. 111; WSU – pg. 121; ESU – pg. 131; PSU – pg. 141; FHSU – pg. 151.

Table 1.13: General Use Operating Expenditures by Program

1. A change in processing protocol regarding the Insurance premium paid for the University of Kansas and other KBOR institutions resulted in a drop of expenses in the Service Clearing/Other Auxiliary Enterprises program from FY 2015 to FY 2016. This helps explain the drop in Auxiliary Enterprises expense for Table 1.13.
2. Data in this format for individual institutions is appended as Table D in Institutional Profiles section as follows: KU – pg. 78; KUMC – pg. 88; KSU – pg. 98; KSUVM – pg. 106; KSRE – pg. 112; WSU – pg. 122; ESU – pg. 132; PSU – pg. 142; FHSU – pg. 152.

Table 1.14: General Use Operating Expenditures by Object

1. Starting in FY 2017, Pittsburg State University's "Classified – FTE" and "Classified – Expenditures" are no longer listed separately and now are included in "Unclassified – FTE" and "Unclassified – Expenditures" categories.
2. Starting FY 2018, Fort Hays State University's "Classified – FTE" and "Classified – Expenditures" are no longer listed separately and now are included in "Unclassified – FTE" and "Unclassified – Expenditures" categories.
3. Starting in FY 2016, the University of Kansas Medical Center's housestaff positions had been almost exclusively funded from non-general use funds. The majority of their housestaff positions are funded from the Graduate Medical Education Reimbursement fund (2918-3050) which is now funded from the restricted fee fund.
 - a. For FY 2016, this specifically affects the Housestaff – FTE amount for Table E, which will now be zero.
 - b. For FY 2017, this specifically affects the Housestaff – FTE and Housestaff – Expenditures amounts for Table E, which will now both be zero.
 - c. For FY 2018, this specifically affects the Housestaff – FTE amount for Table E, which will now be zero.
 - d. For FY 2019, the University of Kansas Medical Center lists two Housestaff positions funded from general use funds.
 - e. For FY 2020, the University of Kansas Medical Center lists 2.9 Housestaff positions funded from general use funds.
4. Data in this format for individual institutions is appended as Table E in Institutional Profiles section as follows: KU – pg. 79; KUMC – pg. 89; KSU – pg. 99; KSUVM – pg. 107; KSRE – pg. 113; WSU – pg. 123; ESU – pg. 133; PSU – pg. 143; FHSU – pg. 153.

Table 1.30: Total Operating Expenditures by Fund

1. Data in this format for individual institutions is appended as Table B in Institutional Profiles section as follows: KU – pg. 76; KSU – pg. 96; WSU – pg. 120; ESU – pg. 130; PSU – pg. 140; FHSU – pg. 150.

Table 1.32: All Funds Operating Expenditures by Program

1. Data in this format for individual institutions is appended as Table C in Institutional Profiles section as follows: KU – pg. 77; KSU – pg. 97; WSU – pg. 121; ESU – pg. 131; PSU – pg. 141; FHSU – pg. 151.

Table 1.33: General Use Operating Expenditures by Program

1. A change in processing protocol regarding the Insurance premium paid for the University of Kansas and other KBOR institutions resulted in a drop of expenses in the Service Clearing/Other Auxiliary Enterprises program from FY 2015 to FY 2016. This helps explain the drop in Auxiliary Enterprises expense for Table 1.33.
2. Data in this format for individual institutions is appended as Table D in Institutional Profiles section as follows: KU – pg. 78; KSU – pg. 98; WSU – pg. 122; ESU – pg. 132; PSU – pg. 142; FHSU – pg. 152.

Table 1.34: General Use Operating Expenditures by Object

1. Starting in FY 2017, Pittsburg State University's "Classified – FTE" and "Classified – Expenditures" are no longer listed separately and now are included in "Unclassified – FTE" and "Unclassified – Expenditures" categories.
2. Starting FY 2018, Fort Hays State University's "Classified – FTE" and "Classified – Expenditures" are no longer listed separately and now are included in "Unclassified – FTE" and "Unclassified – Expenditures" categories.
3. Data in this format for individual institutions is appended as Table E in Institutional Profiles section as follows: KU – pg. 79; KSU – pg. 99; WSU – pg. 123; ESU – pg. 133; PSU – pg. 143; FHSU – pg. 153.

Table 1.40: Gross General Use Educational Expenditures per Student Credit Hour and per Fall FTE Student

1. The Educational Program consists of expenditures for Instruction, Academic Support, Student Services and Institutional Support. This comparison allows analysis of change in those expenditures on a per student basis. Change in expenditures per student may result from either budgetary adjustments or enrollment change. This comparison makes no distinction on variance by educational level of academic discipline.
2. Prior to Fall 2018, the full-time equivalent (FTE) was calculated from credit hours enrolled on 20th class day at the rate of:
 - 1 FTE for each 15 credit hours of undergraduate enrollment
 - 1 FTE for each 9 credit hours of master's or doctoral enrollment
 - 1 FTE for each 12 credit hours of law school or veterinary medical enrollment
 Starting Fall 2018, the full-time equivalent (FTE) is calculated from credit hours enrolled on 20th class day at the rate of:
 - 1 FTE for each 15 credit hours of undergraduate enrollment
 - 1 FTE for each 12 credit hours of graduate enrollment, regardless of student level or program
 This change was made to better align with other KBOR collections, IPEDS, and SHEF. All FTE data in this table has been modified using the updated calculations and may not match the per Fall FTE student data in previously published data books.
3. Prior to FY 2019, this table used FTE data from the Kansas Higher Education Enrollment Report (KHEER). KHEER was discontinued for public institutions in 2019. Starting FY 2019, data from the KHEDS Fall Census collection was used to complete this table. As part of this data source change, data for FY 2014 through FY 2018 has been updated with Fall Census data and may not match data in previously published data books.

HEPI Commonfund Institute Report

Section II Notes

General Notes:

1. For **tuition and fees only**, “Academic Year” refers to a sequence of Fall, Spring, and Summer, the given year being the year in which the spring and summer semesters occur (i.e. the 2016 Academic Year for tuition, covers Fall 2015 + Spring 2016 + Summer 2016). However, for **data collection**, “Academic Year” refers to a sequence of Summer, Fall, Spring, the given year being the year in which the spring semester occurs (i.e. the 2016 Academic Year for data collection, covers Summer 2015 + Fall 2015 + Spring 2016). Please note that the difference in academic year is for **tuition and fees only**, and all other tables or notes referencing AY in this publication are referring to **data collection** academic year.
2. “Required Fees” include mandatory fees generally paid by all students. They do not include other fees institutions may charge on a conditional basis (such as housing, certain lab fees, etc.)
3. Tuition and fees listed in this section have been approved by the Kansas Board of Regents, per standard procedures as outlined in the KBOR Policy Manual. Section II.D.1 a-b of the KBOR Policy Manual provides that “Each state university shall submit proposed changes for the following to the student body president and to the appropriate student organization prior to Board consideration: (1) fees required of every student as a condition of enrollment; (2) student housing fees; (3) building construction fees; (4) changes in academic fees; and (5) tuition rates.” Once approved by the appropriate student organizations, all proposed changes for tuition and required fees must come before the Fiscal Affairs and Audit Committee of the Board for their review. After approval by the Fiscal Affairs and Audit Committee, proposals are then sent to the full board for their final approval.
4. Full-time denotes 15 credit hours for undergraduate students.
5. Full-time denotes 12 credit hours for graduate students.

Tables 2.1a – 2.1d

1. Tuition and fees listed are for full-time students, per semester.
2. Tuition and fee data have been rounded to the nearest dollar.
3. From Academic Years 2008 through 2018, the University of Kansas offered first-time freshman the option of entering into a tuition compact. During each year the tuition compact was available, a compact rate was calculated for the incoming freshman class. If the compact rate was chosen, the per-credit-hour tuition rate remained the same for four years. Beginning Academic Year 2019, the University of Kansas stopped offering the compact tuition rate option.

Table 2.2: Tuition and Fees – Resident/Non-resident by Student Level

1. Table 2.2 identifies tuition charged of both undergraduates and graduates for state universities. It also identifies both tuition and required fees being charged at each institution. Each institution has certain fees mandatorily charged of each student in addition to tuition. These fees finance a variety of items including student activities, student health services, and the cost of student unions. Regarding budget, a major difference is that tuition is part of the General Use budget and fees are a part of the Restricted Use budget. When making national comparisons of student charges, it is necessary to compare combined tuition and required fees.

Table 2.3: Five-Year Undergraduate Tuition and Fees Comparison

1. Beginning in Fiscal Year 2014, the universities now have revised peer institutions. A list of previous peer and revised peers for each institution is as follows:

University of Kansas

Previous Peers

University of Colorado
 University of Iowa
 University of Oregon
 University of North Carolina
 University of Oklahoma

Revised Peers

Indiana University (Bloomington)
 University of Missouri (Columbia)
 University of Oregon
 Michigan State University
 University of Buffalo

Kansas State University***Previous Peers***

Colorado State University
Iowa State University
Oregon State University
North Carolina State University
Oklahoma State University

Revised Peers

Auburn University
Clemson University
Colorado State University
Oklahoma State University
University of Massachusetts – Amherst

Wichita State University***Previous Peers***

University of Akron - OH
Oakland University
Old Dominion University
Portland State University
University of Nevada

Revised Peers

New Mexico State University
University of Massachusetts – Lowell
University of Nevada-Reno
University of North Dakota
Wright State University

Emporia State University***Previous Peers***

Eastern Washington University
Northwest Missouri State University
Northern Michigan University
Salisbury University – MD
Western Carolina University

Revised Peers

Colorado State University – Pueblo
Northwest Missouri State University
Pittsburg State University
University of Nebraska – Kearney
West Texas A&M University

Pittsburg State University***Previous Peers***

Eastern Washington University

Northwest Missouri State University
Northern Michigan University
Salisbury University – MD
Western Carolina University

Revised Peers

Northwest Missouri State University
Colorado Mesa University
Northeastern State University – OK
Southeast Missouri State University
Tarleton State University

Table 2.4: Ratio of Tuition Revenues to Education Costs

1. Compiled from Tuition revenues as a percentage of Education costs, defined as: General Use expenditures for Instruction, Academic Support, Student Services, Institutional Support, Scholarships, and Physical Plant.
2. This is the traditional “Kansas Fee to Cost Ratio” which has been measured in this manner since 1966.

Table 2.6: Relationship of Resident Tuition per Semester and Consumer Price Index

1. This table has been modified to compare CPI-U against the average resident undergraduate tuition for all state universities. In previous data books, this table only compared against average resident undergraduate tuition at the University of Kansas and Kansas State University.
2. The average resident undergraduate tuition per semester is measured in terms of Academic Year for tuition and fees, defined previously in this notes section as well as in the glossary.
3. The CPI-U data comes from the Bureau of Labor Statistics’ CPI Databases. The data shown in Table 2.6 of the State University Data Book in the CPI-U column is the annual average found on CPI Databases: All Urban Consumers (CPI-U), All items in U.S. city average, all urban consumers. For individuals interested, the CPI Databases can be found here: <https://www.bls.gov/cpi/data.htm>.

Table 2.7: Relationship of Resident Tuition per Semester and Per Capita Income

1. This table has been modified to compare per capita income against the average resident undergraduate tuition for all state universities. In previous data books, this table only compared against average resident undergraduate tuition at the University of Kansas and Kansas State University.
2. Per Capita Income totals from 1999 – 2019 were updated to reflect revisions made by the Bureau of Economic Analysis in September 2020. Therefore, the percent changes, ratio percentages, and Kansas per capita income data all differ from prior year data books.
3. The average resident undergraduate tuition per AY (two semesters) is measured in terms of Academic Year for tuition and fees, defined previously in this notes section as well as in the glossary.
4. The Kansas per capita income data comes from the U.S. Department of Commerce, Bureau of Economic Analysis (BEA), specifically from the personal income summary. The per capita personal income is the total annual personal income divided by the total midyear population. All dollar estimates are in current dollars and are not adjusted for inflation. The Bureau of Economic Analysis releases data in April which are estimates based on an average of the four quarters of the previous year. In September, the BEA releases a final annual figure, which is the total used for Table 2.7 of the State University Data Book. This data can be found here: <http://www.bea.gov/iTable/iTable.cfm?ReqID=70&step=1>.

Table 2.8: Consumer Price Index (CPI-U) and Higher Education Index (HEPI)

1. The CPI-U data comes from the Bureau of Labor Statistics’ CPI Databases. The data shown in Table 2.8 of the State University Data Book in the CPI-U column is the annual average found on CPI Databases: All Urban Consumers (CPI-U), All items in U.S. city average, all urban consumers. For individuals interested, the CPI Databases can be found here: <https://www.bls.gov/cpi/data.htm>.
2. The HEPI data comes from the Research Associates of Washington and Commonfund Institute, specifically Table A of the Commonfund Report– the Historical Summary of Higher Education Price Index and Consumer Price Index. The HEPI data is reported based on a fiscal year.
3. The Higher Education Price Index (HEPI) is an inflation index designed specifically for use by institutions of higher education. HEPI measures the average relative level in the price of a fixed market basket of goods and services purchased by colleges and universities each year through current fund educational and general expenditures, excluding research. HEPI is considered a more accurate indicator or cost changes for colleges and universities than the Consumer Price Index (CPI), and it is used primarily to project future budget increases required to preserve purchasing power. The HEPI report can be found here: <https://info.commonfund.org/commonfund-higher-education-price-index>.

Section III Notes

General Notes:

1. The data in any tables that use the KHEDS AY Collection may have changed slightly in Academic Year 2010 through Academic Year 2014 due to a data clean-up which improved the quality of data. Due to this slight adjustment in data, these tables may not match exactly what was published in prior year data books.

Table 3.1: Enrollment Headcount by Institution (Fall)

1. Prior to Fall 2019, this table used data from the Kansas Higher Education Enrollment Report (KHEER). The KHEER collection was discontinued in 2019 for public institutions. Starting Fall 2019, data from the KHEDS Fall Census collection was used to complete this table. As part of this data source change, data for Fall 2014 through Fall 2018 has been updated with Fall Census data and may not match data in previously published data books.

Table 3.1a: Enrollment Headcount by Institution (Academic Year)

1. This table does not appear in data books prior to 2015.

Table 3.2: Full-Time Equivalent Enrollment by Institution (Fall)

1. Prior to Fall 2018, the full-time equivalent (FTE) was calculated from credit hours enrolled on 20th class day at the rate of:
 - 1 FTE for each 15 credit hours of undergraduate enrollment
 - 1 FTE for each 9 credit hours of master's or doctoral enrollment
 - 1 FTE for each 12 credit hours of law school or veterinary medical enrollment
 Starting Fall 2018, the full-time equivalent (FTE) is calculated from credit hours enrolled on 20th class day at the rate of:
 - 1 FTE for each 15 credit hours of undergraduate enrollment
 - 1 FTE for each 12 credit hours of graduate enrollment, regardless of student level or program
 This change was made to better align with other KBOR collections, IPEDS, and SHEF. All FTE data in this table has been modified using the updated calculations and may not match FTE data in previously published data books.
2. Prior to the 2015 data book, KUMC FTE data was not included in the university data book because the data was not collected in the Kansas Higher Education Enrollment report (KHEER), the data source for the table. In the data books for the years 2015 through 2018, the KUMC Office of Enterprise Analytics supplied the data for inclusion in the university data book. KUMC's FTE Enrollment included medical residents/fellows and visiting MD/PharmD students. Medical students, MD/PhD students, medical residents/fellows, professional UG certificate program students, psychiatry interns/practicum students, and visiting MD/PharmD students were all classified as full-time regardless of student credit hours and had an FTE assigned to 1.00. All other FTE was based upon dividing credit hours by 15 for undergraduate students and by 9 for graduate or professional students.
3. Prior to Fall 2019, this table used data from the Kansas Higher Education Enrollment Report (KHEER). The KHEER collection was discontinued in 2019 for public institutions. Starting Fall 2019, data from the KHEDS Fall Census collection was used to complete this table. As part of this data source change, data for Fall 2014 through Fall 2018 has been updated with Fall Census data and may not match data in previously published data books.

Table 3.2a: Full-Time Equivalent Enrollment by Institution (Academic Year)

1. This table does not appear in data books prior to 2015.
2. A divisor of 30 is used to calculate FTE for undergraduate students in an academic year, while a divisor of 24 is used for graduate students.
3. Prior year FTE data has been rounded to better align with KHEStats and may not match FTE data in previously published data books.

Table 3.3: Demographic Profiles of Students at State Universities

1. Totals include the six state universities, University of Kansas – Medical Center, and KSU – Veterinary Medicine Center.

2. Demographic and enrollment data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly-updated dashboards, graphs and charts. KHEStats can be accessed at stats.kansasregents.org/.
3. Beginning with the 2015 data book, KBOR is using KHEDS Academic Year (AY) data instead of data from the KBOR Student Demographics Report and the Kansas Higher Education Enrollment Report (KHEER). The KHEDS Academic Year consists of consecutive summer, fall, and spring terms (i.e. the 2015 Academic Year covers Summer 2014 + Fall 2014 + Spring 2015). The change to academic year reporting was made to align the data book with other KBOR reports.
4. A divisor of 30 is used to calculate FTE for undergraduate students in an academic year, while a divisor of 24 is used for graduate and professional students.
5. Full-time undergraduate students are defined as those enrolled in at least 24 credit hours in an academic year. Graduate students are considered full-time if they are enrolled in 18 credit hours during the academic year.
6. Residency data is taken from the new Enrolled Flags field which measures residency at the beginning of the academic year and matches what is currently displayed in the Kansas Higher Education Statistics (KHEStats).
7. Pittsburg State University provided updated residency data for AY 2012, AY 2013, and AY 2015 and the University of Kansas provided updated residency data for AY 2012-2014 due to an error in reporting the data to KBOR. Therefore, the totals for “Resident by Exception” and “Non-Resident” will not align with numbers in KHEStats for the university sector.
8. “Residency by Exception” refers to students who were not domiciliary residents of Kansas at the beginning of the academic year but are classified as Kansas residents for tuition purposes pursuant to an allowable exception per statute.
9. Beginning in AY 2011, institutions were required to report student’s race/ethnicity according to definitions and parameters established by the U.S. Department of Education (IPEDS). According to these new definitions, a student’s race/ethnicity can now be reported in four newly created or modified categories: Black or African-American, Asian, Native Hawaiian/Pacific Islander, and Two or more races. The other race/ethnicity reporting categories are White, Non-resident Alien, American Indian/Alaska Native, Asian, and Unknown. The Hispanic ethnicity category includes all students who reported a Hispanic ethnicity, regardless of their race selection.
10. The “% Change” column for Age and Race/Ethnicity does not reflect the change in percentage, but instead reflects the percent change in the number of students in each category for the time period. This number more accurately reflects the change in student population.

Table 3.4: Enrollment Headcount by Institution and Gender

1. This table was eliminated in 2015. The data now appears in table 3.3 and the university profiles.

Table 3.5: Average ACT Composite Scores Among Entering Freshmen

1. ACT definition of entering freshmen differs slightly from that used by institutions. Therefore, average ACT scores reported herein may differ slightly from averages reported by state universities. The ACT scores include both resident and non-resident entering freshmen. At the request of KU, their data is based upon an individual’s highest ACT score, which differs slightly from ACT data which is based upon individual’s most recent score. KU also uses converted SAT scores.
2. The AY 2015 ACT score for Wichita State University will not align with previously published data books due to a re-coding of students by WSU. This adjustment only affects the composite score published in the data book slightly.
3. The AY 2015 ACT score for Pittsburg State University will not align with previously published data books due to a difference in the first-time, degree-seeking cohort used in the calculation of the composite ACT score. This adjustment only affects the composite score published in the data book slightly.

Table 3.6: Degrees and Certificates Conferred at State Universities by Type

1. Kansas State University previously included completions of non-degree programs marked “secondary majors.” In 2016, KBOR removed completions in these non-degree programs resulting in a reduction of 107 completions from the bachelor’s degrees attainment category.
2. Prior to 2015, the data in this table came from the IPEDS Completions survey and certificates were not included.
3. KBOR staff have worked to align completions definitions to IPEDS. As a result, the decision was made to modify the “certificates” category, beginning with AY 2014, to include all post-secondary university certificates that lead to an industry recognized credential, license, or certification in standard reporting. Certificates that do not lead to an industry-recognized

credential are included under the “Other Awards” category. Certificates presented in Table 3.6 are categorized to reflect this new system of classification.

Table 3.6a: Degrees Conferred at State Universities by Institution

1. Kansas State University previously included completions of non-degree programs marked “secondary majors.” In 2016, KBOR removed completions in these non-degree programs resulting in a reduction of 107 completions from the bachelor’s degrees attainment category.
2. See notes for Table 3.6.

Table 3.7: Graduation Status of First-Time, Full-Time Freshman (4,5,6, and 8-year Cohort)

1. The student enrollment reported is the number of first-time, full-time freshmen (degree-seeking) enrolled in twelve or more credit hours.

Table 3.8: One Year Retention Rate of First-Time, Full-Time Freshmen

1. The student enrollment reported is the number of first-time, full-time freshmen (degree-seeking) enrolled in twelve or more credit hours.

Table 3.81: One Year Retention Rate of First-Time, Full-Time Freshmen by ACT Score

1. The student enrollment reported is the number of first-time, full-time freshmen (degree-seeking) enrolled in twelve or more credit hours.

Table 3.9: Undergraduate Transfers to State Universities by Institution

1. Prior to the 2020 State University Data Book, this table used data from the Kansas Higher Education Enrollment Report (KHEER). The KHEER collection was discontinued in 2019 for public institutions and going forward, data from the KHEDS AY collection will be used to complete this table. As part of the data source change, this table has been expanded to include every Kansas public, postsecondary institution and will not match previously published data books.

Table 3.10: Student Success Index

1. The data may have changed slightly for prior years due to the collection of additional data which improves the quality of data. Due to this slight adjustment in data, this table may not match exactly what was published in prior year data books.
2. Given the diverse population and varying mission of community colleges and technical colleges, the Student Success Index provides a more comprehensive measure of institutional effectiveness than traditional graduation and retention rates.
3. Outcomes for the Student Success Index are determined using data from both the KHEDS AY Collection and the National Student Clearinghouse. These outcomes are examined for an academic year cohort from the KHEDS AY Collection. The student is counted once per academic year for each institution. Translations have been made for merged institutions, and the current institution is used for the label. For completions, all completions reported to KBOR in the AY Completions File have been used. This may include stand-alone programs/occupational programs, certificates, and degrees. The segments on the index bar are mutually exclusive from left to right. Once the student is counted in one segment, that student is not counted in another segment.
4. The Student Success Index varies from typical IPEDS measures in the following ways:
 - The index uses an academic year cohort, not the fall cohort. As of the 2017-18 IPEDS collection, IPEDS switched from using the Fall Enrollment component to the 12-Month Enrollment component as the cohort for the Outcome Measures survey.
 - The entrance year is the academic year in which the student entered the Kansas’ public postsecondary education system.
 - The index includes part-time and full-time students, as well as transfer students.
 - Exclusions. IPEDS allows exclusion of students from the cohort such as death or total and permanent disability; service in the armed forces (including those called to active duty); service with a foreign aid service of the federal government, such as the Peace Corps; or service on official church missions. KBOR does not track or remove exclusions.
 - Formal transfer prep programs. If an institution has a formal transfer prep program, but that student does not receive a formal award from the first institution, the first institution can count the student as a grad if the

student fulfills the transfer prep program and transfers to another institution. KBOR does not track transfer prep specifically.

- IPEDS allows institutions to count completers as 'retained' in retention rates for 2-year institutions under some circumstances. These are broken out separately for the index.
- Types of degrees/awards. In order to count a student or award for IPEDS the student must be seeking a formal degree, certificate, or award. KBOR and institutions have not always defined these in the same way, and some awards/occupational programs have not always been collected by KBOR. The index counts postsecondary credit toward degrees, certificates, and stand-alone programs (occupational programs) if these have been submitted to KBOR. Any level of completion found within the specified timeframe is counted.
- Expected time to degree. For the success index, no differentiation regarding the length of a degree program was made. KBOR evaluates whether a student completed or retained at the end of each entrance year whereas IPEDS looks at 150% of the time of the degree program.
- Mergers. KBOR used translations for the merged institutions. It is uncertain how these were reported to IPEDS.

Section IV Notes

General Notes:

1. KU is exclusive of University of Kansas – Medical Center (KUMC). KUMC data is included separately on selected tables.
2. The DBTF report asks for funding information that is used to allocate the faculty salary enhancement. The faculty member's position funding information should be derived from the institution's budget not from the funding reported in the payroll system. If the faculty member's position is not budgeted, then the payroll funding may be used.

Table 4.1: Budgeted Positions by Program

1. Due to infrequent usage, the Academic Personnel Development position (position 4.8) has been phased out of the DBTF report. Starting with the 2020 State University Data Book, all data for that position will be merged with the Academic Administration position (position 4.6).
2. In prior years, KU misreported personnel in "Community Services" positions as "Patient Services" and personnel in "Public Broadcasting" positions as "Cooperative Extension". This has been corrected, but data may not match previously published data books.
3. Beginning in Fiscal Year 2021, the "Research Support" position has been replaced by "Centralized Research Operations".

Table 4.3: Average Faculty Salaries by Academic Rank

1. Instructional staff data included in this table includes faculty on sabbatical leave at their regular salaries, even if reduced while on leave; replacements for faculty on leave without pay; and department heads, with faculty rank but no other administrative title.
2. Instructional staff data included in this table does not include temporary replacements for faculty on sabbatical leave; instructional faculty who are not employed on a full-time basis; faculty who donate services; faculty in a military organization and paid on a different scale from civilian employees; administrative officers with titles such as Dean of Instruction, Academic Dean, Librarian, Registrar, Coach, etc., even though they may devote part of their time to classroom instruction and have faculty rank; and undergraduate students who assist in the instruction of courses, but who have titles such as Teaching Assistant, Teaching Associate, etc.
3. The Total/Average column for Table 4.3 represents the total (sum) of each faculty category (Professors, Associate Professors, Assistant Professors, and Instructors) and the average salary total (total nine month salary divided by total faculty) for all institutions listed.

Table 4.32: Average Faculty Salary Increases by Academic Rank

1. Table does not include continuing lecturers or non-ranked instructional, research or public service faculty.

Table 4.35: Average Salaries of Instructional Faculty, Compared to Peer Institutions

1. Peer average is a weighted average of four faculty ranks, which factors in the distribution of faculty ranks of the State Universities.
2. University of Kansas data is exclusive of University of Kansas – Medical Center.
3. Kansas State University data does include Kansas State University – Veterinary Medical Center.
4. Beginning in Fiscal Year 2014, the universities now have revised peer institutions. A list of previous peer and revised peers for each institution is as follows:

University of Kansas

Previous Peers

University of Colorado
 University of Iowa
 University of Oregon
 University of North Carolina
 University of Oklahoma

Revised Peers

Indiana University (Bloomington)
 University of Missouri (Columbia)
 University of Oregon

Section V Notes

General Notes:

1. Buildings in Use – include state-owned buildings; state-owned buildings managed by auxiliary enterprises and affiliated corporations; buildings owned by an endowment, foundation or similar group; leased facilities and spaces and public private partnership (P3) facilities owned and operated by a private entity for public use.
2. Mission Critical - buildings that are predominately used for the academic and/or research missions of the State universities, and the infrastructure that directly supports these buildings. Mission critical spaces are not restricted to only state-owned facilities (i.e. leased research facilities, etc.)
3. EBF Eligible - buildings eligible for Educational Building Fund (EBF) monies per current Board of Regents' guidance that EBF revenues be dedicated to deferred maintenance for "mission critical" buildings and infrastructure. This current Board guidance narrows the uses of EBF revenues that are outlined by K.S.A. 76-6b02. Buildings ineligible for Educational Building Fund (EBF) monies per current Board of Regents' guidance, include:
 - All non-state-owned buildings regardless of use
 - Any state-owned buildings constructed in 2007 or later
 - Buildings and infrastructure which are not predominantly used for academic or research purposes (e.g., buildings wholly or predominantly used for administrative offices, barns, chapels, child care, facility shops, intercollegiate athletics, monuments, parking garages, private residences, student health clinics, student housing, student unions, etc.)
4. For more detailed information on the state university facilities data, please refer to the 2020 Report on State University Building Inventory, Space Utilization, and Facilities Condition, which can be found here:
<https://www.kansasregents.org/data/legislative-reports>

Tables 5.11a – 5.11c: Building Inventory: All Buildings in Use, Mission Critical Buildings, and Mission Critical, EBF Eligible Buildings

1. KU includes Edwards Campus.
2. KUMC includes KUMC-Wichita campus.
3. KSU includes KSU Veterinary Medical Center, Kansas State Polytechnic (formerly KSU Salina Campus), KSU – ESARP, and KSU Agriculture Experiment Stations.
4. Total Gross Area - The sum of all areas on all floors of a building including the exterior walls, structure, HVAC shafts, stairs and elevators.

Tables 5.12: Building Inventory: Area of All Buildings on State University Campuses by Age

1. KU includes Edwards Campus.
2. KUMC includes KUMC-Wichita campus.
3. KSU includes KSU Veterinary Medical Center, Kansas State Polytechnic (formerly KSU Salina Campus), KSU – ESARP, and KSU Agriculture Experiment Stations.

Table 5.21: Space Utilization: Instructional Spaces Comparison by State University Campus

1. General-Purpose Classrooms - classrooms primarily used for lectures or discussions. The spaces are not configured or equipped to limit their use to a particular discipline and are centrally managed by the Registrar.
2. Dedicated Classrooms – include both departmental dedicated classrooms and departmental general-purpose classrooms.
 - a. Departmental Dedicated Classrooms - These rooms are dedicated because of a particular item in the room, such as a piano in a Music classroom, or stored demonstration materials related to Anthropology or Geology that makes sharing of the space challenging.
 - b. Departmental General-Purpose Classrooms - Based on the campus walkthroughs and course assignments, these rooms appear to be more similar to campus general-purpose classrooms, although falling under departmental control.
3. Specialized Instructional Spaces - spaces configured and equipped for instruction in a particular discipline and are used primarily for regularly-scheduled courses.

Table 5.22: Space Utilization: Percentage of Weekly Hours Used in General-Purpose Classrooms

1. Three components for each instructional space type were examined in order to evaluate utilization efficiency:
 - a. Square feet per seat or station
 - b. Percentage of seats or stations occupied when the room is scheduled
 - c. Percentage of weekly available hours scheduled relative to the institutional scheduling window
2. The industry standard target metric is that classrooms should be scheduled for two-thirds, or 67 percent, of the available weekly hours. For campuses concentrating instruction during evening hours, the target rises to 80 percent.

Table 5.23: Space Utilization: Need-to-Existing Office Space Ratio

1. The need-to-existing office and support space ratio was calculated by dividing the existing office and support space total into the calculated office and support space total. A figure of 100 percent would indicate complete concordance between existing and calculated need, while a figure less than that indicates that potential opportunity exists.
2. The percentage represents the theoretical need for office space. This is not to say that the difference represents existing office space that can readily be repurposed; however, it does indicate that there may be opportunity space that could warrant potential consideration.

Tables 5.31a – 5.31c: Facilities Condition: Replacement & Renewal Costs Summary for All Buildings in Use, Mission Critical Buildings, and Mission Critical, EBF Eligible Buildings

1. KU includes Edwards Campus.
2. KUMC includes KUMC-Wichita campus.
3. KSU includes KSU Veterinary Medical Center, Kansas State Polytechnic (formerly KSU Salina Campus), KSU – ESARP, and KSU Agriculture Experiment Stations.
4. Current Replacement Value - The estimated total project cost to duplicate all of the internal and external systems and components of a building providing the same level of functionality. Land value is not included.
5. Renewal Cost - Estimated cost to correct deficiencies in order to bring a building's Facility Condition Index to 0.1 or 90 percent condition.
6. Facility Condition Index - The FCI provides a simple measurement of a facility's condition. FCI represents the ratio of the cost to correct a facility's deficiencies to the current replacement value of the facility. The higher the FCI, the poorer the condition of the facility.
 - a. 0 - .20: Excellent
 - b. .21 - .30: Good
 - c. .31 - .50: Fair
 - d. .51 - .70: Poor
 - e. .71 – 1.00: Deficient
7. The target metric is an FCI of 0.1, or 90% of renewal costs.
8. Due to rounding, the state university total values may not equal the sum of the individual institution's values.

Institutional Profiles Notes – University of Kansas

General Notes:

1. The data in any tables that use the KHEDS AY Collection may have changed slightly in Academic Year 2010 through Academic Year 2014 due to a data clean-up which improved the quality of data. Due to this slight adjustment in data, these tables may not match exactly what was published in prior year data books.
2. Due to rounding, numbers may not match other published reports.
3. In FY 2020, the universities received varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.

Table A: Enrollment by Student Characteristics

1. Beginning with the January 2015 data book, KBOR is using KHEDS Academic Year (AY) data instead of the KBOR Student Demographics Report and the Kansas Higher Education Enrollment Report (KHEER) for the enrollment and demographics data in Table A. The KHEDS Academic Year consists of consecutive summer, fall, and spring terms (i.e. the 2014 Academic Year covers Summer 2013 + Fall 2013 + Spring 2014). This change was made to align the data book with other KBOR reports.
2. Demographic and enrollment data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly-updated dashboards, graphs and charts. KHEStats can be accessed at stats.kansasregents.org/.
3. A divisor of 30 is used to calculate FTE for undergraduate students in an academic year, while a divisor of 24 is used for graduate students.
4. Full-time students are defined as those enrolled in at least 24 credit hours in an academic year. Some institutions include additional factors for determining graduate student status when reporting to the National Student Clearinghouse, or for financial aid purposes, including GTA/GRA employment and/or enrollment in dissertation hours. IPEDS also uses additional criteria when determining graduate student status.
5. Prior year FTE data has been rounded to better align with KHEStats and may not match FTE data in previously published data books.
6. “Residency by Exception” refers to students who were not domiciliary residents of Kansas at the beginning of the academic year, but are classified as Kansas residents for tuition purposes pursuant to an allowable exception per statute.
7. The “% Change” column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These number more accurately reflect the change in student population.
8. Beginning in AY 2011, institutions were required to report student’s race/ethnicity according to definitions and parameters established by the U.S. Department of Education (IPEDS). According to these new definitions, a student’s race/ethnicity can now be reported in four newly created or modified categories: Black or African-American, Asian, Native Hawaiian/Pacific Islander, and Two or more races. The other race/ethnicity reporting categories are White, Non-resident Alien, American Indian/Alaska Native, Asian, and Unknown. The Hispanic ethnicity category includes all students who reported a Hispanic ethnicity, regardless of their race selection.
9. Prior to 2015, completions data in this table came from the IPEDS Completions survey and certificates were not included.
10. KBOR staff have worked to align completions definitions to IPEDS. As a result, the decision was made to modify the “certificates” category, beginning with AY 2014, to include all post-secondary university certificates that lead to an industry recognized credential, license, or certification in standard reporting. Certificates that do not lead to an industry-recognized credential are included under the “Other Awards” category. Certificates presented in Table 3.6 are categorized to reflect this new system of classification.
11. Gross Building area – the floor area contained within the building measured to the internal face of the external walls.
12. Net assignable area - the gross area less the actual structural, mechanical, restrooms, custodial and circulation area.
13. Total Gross area - area measured to outside face of each enclosed floor of building, excluding the roof.
14. The space factor shown for classrooms and teaching laboratories is derived by dividing the net assignable square feet by the weekly student contact hours. Small space factors indicate better utilization. More efficient utilization is easier to obtain at the larger institutions. The goal or standard particularly for the larger institutions is 0.83 for classrooms. Also, the goal for

the classroom use is an average of 30 hours per week. For teaching laboratories the goal is an average of 20 hours use per week and a space factor of 3.75 or smaller.

Table A: Student Success Index

1. The data may have changed slightly for prior years due to the collection of additional data which improves the quality of data. Due to this slight adjustment in data, this table may not match exactly what was published in prior year data books.
2. Given the diverse population and varying mission of community colleges and technical colleges, the Student Success Index provides a more comprehensive measure of institutional effectiveness than traditional graduation and retention rates.
3. Outcomes for the Student Success Index are determined using data from both the KHEDS AY Collection and the National Student Clearinghouse. These outcomes are examined for an academic year cohort from the KHEDS AY Collection. The student is counted once per academic year for each institution. Translations have been made for merged institutions, and the current institution is used for the label. For completions, all completions reported to KBOR in the AY Completions File have been used. This may include stand-alone programs/occupational programs, certificates, and degrees. The segments on the index bar are mutually exclusive from left to right. Once the student is counted in one segment, that student is not counted in another segment.
4. The Student Success Index varies from typical IPEDS measures in the followings ways:
 - The index uses an academic year cohort, not the fall cohort. As of the 2017-18 IPEDS collection, IPEDS switched from using the Fall Enrollment component to the 12-Month Enrollment component as the cohort for the Outcome Measures survey.
 - The entrance year is the academic year in which the student entered the Kansas’ public postsecondary education system.
 - The index includes part-time and full-time students, as well as transfer students.
 - Exclusions. IPEDS allows exclusion of students from the cohort such as death or total and permanent disability; service in the armed forces (including those called to active duty); service with a foreign aid service of the federal government, such as the Peace Corps; or service on official church missions. KBOR does not track or remove exclusions.
 - Formal transfer prep programs. If an institution has a formal transfer prep program, but that student does not receive a formal award from the first institution, the first institution can count the student as a grad if the student fulfills the transfer prep program and transfers to another institution. KBOR does not track transfer prep specifically.
 - IPEDS allows institutions to count completers as ‘retained’ in retention rates for 2-year institutions under some circumstances. These are broken out separately for the index.
 - Types of degrees/awards. In order to count a student or award for IPEDS the student must be seeking a formal degree, certificate, or award. KBOR and institutions have not always defined these in the same way, and some awards/occupational programs have not always been collected by KBOR. The index counts postsecondary credit toward degrees, certificates, and stand-alone programs (occupational programs) if these have been submitted to KBOR. Any level of completion found within the specified timeframe is counted.
 - Expected time to degree. For the success index, no differentiation regarding the length of a degree program was made. KBOR evaluates whether a student completed or retained at the end of each entrance year whereas IPEDS looks at 150% of the time of the degree program.
 - Mergers. KBOR used translations for the merged institutions. It is uncertain how these were reported to IPEDS.

Table D: General Use Operating Expenditures by Program

1. A change in processing protocol regarding the Insurance premium paid for KU and other KBOR institutions resulted in a drop of expenses in the Service Clearing/Other Auxiliary Enterprises program from FY 2015 to FY 2016.

Institutional Profiles Notes – University of Kansas Medical Center

General Notes:

1. The data in any tables that use the KHEDS AY Collection may have changed slightly in Academic Year 2010 through Academic Year 2014 due to a data clean-up which improved the quality of data. Due to this slight adjustment in data, these tables may not match exactly what was published in prior year data books.
2. Due to rounding, numbers may not match other published reports.
3. In FY 2020, the universities received varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.

Table A: Enrollment by Student Characteristics

1. Beginning with the January 2015 data book, KBOR is using KHEDS Academic Year (AY) data instead of the KBOR Student Demographics Report and the Kansas Higher Education Enrollment Report (KHEER) for the enrollment and demographics data in Table A. The KHEDS Academic Year consists of consecutive summer, fall, and spring terms (i.e. the 2014 Academic Year covers Summer 2013 + Fall 2013 + Spring 2014). This change was made to align the data book with other KBOR reports.
2. Demographic and enrollment data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly-updated dashboards, graphs and charts. KHEStats can be accessed at stats.kansasregents.org/.
3. A divisor of 30 is used to calculate FTE for undergraduate students in an academic year, while a divisor of 24 is used for graduate students. Medical residents at the University of Kansas Medical Center are reported in the enrollment headcount and student status, but are not assigned credit hours. Therefore, the FTE numbers for KUMC should not be compared to the headcount enrollment since each measures a different cohort of students. All other profile demographic and enrollment data for KUMC includes the medical students.
4. Full-time students are defined as those enrolled in at least 24 credit hours in an academic year. In addition, all KUMC medical residents are classified as full-time students. Some institutions include additional factors for determining graduate student status when reporting to the National Student Clearinghouse, or for financial aid purposes, including GTA/GRA employment and/or enrollment in dissertation hours. IPEDS also uses additional criteria when determining graduate student status.
5. Prior year FTE data has been rounded to better align with KHEStats and may not match FTE data in previously published data books.
6. “Residency by Exception” refers to students who were not domiciliary residents of Kansas at the beginning of the academic year, but are classified as Kansas residents for tuition purposes pursuant to an allowable exception per statute.
7. The “% Change” column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These number more accurately reflect the change in student population.
8. Beginning in AY 2011, institutions were required to report student’s race/ethnicity according to definitions and parameters established by the U.S. Department of Education (IPEDS). According to these new definitions, a student’s race/ethnicity can now be reported in four newly created or modified categories: Black or African-American, Asian, Native Hawaiian/Pacific Islander, and Two or more races. The other race/ethnicity reporting categories are White, Non-resident Alien, American Indian/Alaska Native, Asian, and Unknown. The Hispanic ethnicity category includes all students who reported a Hispanic ethnicity, regardless of their race selection.
9. Prior to 2015, completions data in this table came from the IPEDS Completions survey and certificates were not included.
10. KBOR staff have worked to align completions definitions to IPEDS. As a result, the decision was made to modify the “certificates” category, beginning with AY 2014, to include all post-secondary university certificates that lead to an industry recognized credential, license, or certification in standard reporting. Certificates that do not lead to an industry-recognized credential are included under the “Other Awards” category. Certificates presented in Table 3.6 are categorized to reflect this new system of classification.
11. Gross Building area – the floor area contained within the building measured to the internal face of the external walls.
12. Net assignable area - the gross area less the actual structural, mechanical, restrooms, custodial and circulation area.
13. Total Gross area - area measured to outside face of each enclosed floor of building, excluding the roof.

14. The space factor shown for classrooms and teaching laboratories is derived by dividing the net assignable square feet by the weekly student contact hours. Small space factors indicate better utilization. More efficient utilization is easier to obtain at the larger institutions. The goal or standard particularly for the larger institutions is 0.83 for classrooms. Also, the goal for the classroom use is an average of 30 hours per week. For teaching laboratories the goal is an average of 20 hours use per week and a space factor of 3.75 or smaller.

Table E: General Use Operating Expenditures by Object

1. Between FY 2016 and FY 2018, the University of Kansas Medical Center’s housestaff positions were completely funded from non-general use funds. The majority of their housestaff positions were funded from the Graduate Medical Education Reimbursement fund (2918-3050) which is funded from the restricted fee fund.
2. Beginning in FY 2019, the University of Kansas Medical Center began to reflect a minimal number of housestaff positions and funding as part of the general use budget.

Institutional Profiles Notes – Kansas State University

General Notes:

1. The data in any tables that use the KHEDS AY Collection may have changed slightly in Academic Year 2010 through Academic Year 2014 due to a data clean-up which improved the quality of data. Due to this slight adjustment in data, these tables may not match exactly what was published in prior year data books.
2. Due to rounding, numbers may not match other published reports.
3. In FY 2020, the universities received varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.

Table A: Enrollment by Student Characteristics

1. Beginning with the January 2015 data book, KBOR is using KHEDS Academic Year (AY) data instead of the KBOR Student Demographics Report and the Kansas Higher Education Enrollment Report (KHEER) for the enrollment and demographics data in Table A. The KHEDS Academic Year consists of consecutive summer, fall, and spring terms (i.e. the 2014 Academic Year covers Summer 2013 + Fall 2013 + Spring 2014). This change was made to align the data book with other KBOR reports.
2. Demographic and enrollment data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly-updated dashboards, graphs and charts. KHEStats can be accessed at stats.kansasregents.org/.
3. A divisor of 30 is used to calculate FTE for undergraduate students in an academic year, while a divisor of 24 is used for graduate students
4. Full-time students are defined as those enrolled in at least 24 credit hours in an academic year. Some institutions include additional factors for determining graduate student status when reporting to the National Student Clearinghouse, or for financial aid purposes, including GTA/GRA employment and/or enrollment in dissertation hours. IPEDS also uses additional criteria when determining graduate student status.
5. Prior year FTE data has been rounded to better align with KHEStats and may not match FTE data in previously published data books.
6. “Residency by Exception” refers to students who were not domiciliary residents of Kansas at the beginning of the academic year, but are classified as Kansas residents for tuition purposes pursuant to an allowable exception per statute.
7. The “% Change” column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These number more accurately reflect the change in student population.
8. Beginning in AY 2011, institutions were required to report student’s race/ethnicity according to definitions and parameters established by the U.S. Department of Education (IPEDS). According to these new definitions, a student’s race/ethnicity can now be reported in four newly created or modified categories: Black or African-American, Asian, Native Hawaiian/Pacific Islander, and Two or more races. The other race/ethnicity reporting categories are White, Non-resident Alien, American Indian/Alaska Native, Asian, and Unknown. The Hispanic ethnicity category includes all students who reported a Hispanic ethnicity, regardless of their race selection.
9. Prior to 2015, completions data in this table came from the IPEDS Completions survey and certificates were not included.
10. KBOR staff have worked to align completions definitions to IPEDS. As a result, the decision was made to modify the “certificates” category, beginning with AY 2014, to include all post-secondary university certificates that lead to an industry recognized credential, license, or certification in standard reporting. Certificates that do not lead to an industry-recognized credential are included under the “Other Awards” category. Certificates presented in Table 3.6 are categorized to reflect this new system of classification.
11. Gross Building area – the floor area contained within the building measured to the internal face of the external walls.
12. Net assignable area - the gross area less the actual structural, mechanical, restrooms, custodial and circulation area.
13. Total Gross area - area measured to outside face of each enclosed floor of building, excluding the roof.
14. The space factor shown for classrooms and teaching laboratories is derived by dividing the net assignable square feet by the weekly student contact hours. Small space factors indicate better utilization. More efficient utilization is easier to obtain at the larger institutions. The goal or standard particularly for the larger institutions is 0.83 for classrooms. Also, the goal for

the classroom use is an average of 30 hours per week. For teaching laboratories the goal is an average of 20 hours use per week and a space factor of 3.75 or smaller.

15. Kansas State University previously included completions of non-degree programs marked “secondary majors.” In 2016, KBOR removed completions in these non-degree programs resulting in a reduction of 107 completions from the bachelor’s degrees attainment category.

Table A: Student Success Index

1. The data may have changed slightly for prior years due to the collection of additional data which improves the quality of data. Due to this slight adjustment in data, this table may not match exactly what was published in prior year data books.
2. Given the diverse population and varying mission of community colleges and technical colleges, the Student Success Index provides a more comprehensive measure of institutional effectiveness than traditional graduation and retention rates.
3. Outcomes for the Student Success Index are determined using data from both the KHEDS AY Collection and the National Student Clearinghouse. These outcomes are examined for an academic year cohort from the KHEDS AY Collection. The student is counted once per academic year for each institution. Translations have been made for merged institutions, and the current institution is used for the label. For completions, all completions reported to KBOR in the AY Completions File have been used. This may include stand-alone programs/occupational programs, certificates, and degrees. The segments on the index bar are mutually exclusive from left to right. Once the student is counted in one segment, that student is not counted in another segment.
4. The Student Success Index varies from typical IPEDS measures in the followings ways:
 - The index uses an academic year cohort, not the fall cohort. As of the 2017-18 IPEDS collection, IPEDS switched from using the Fall Enrollment component to the 12-Month Enrollment component as the cohort for the Outcome Measures survey.
 - The entrance year is the academic year in which the student entered the Kansas’ public postsecondary education system.
 - The index includes part-time and full-time students, as well as transfer students.
 - Exclusions. IPEDS allows exclusion of students from the cohort such as death or total and permanent disability; service in the armed forces (including those called to active duty); service with a foreign aid service of the federal government, such as the Peace Corps; or service on official church missions. KBOR does not track or remove exclusions.
 - Formal transfer prep programs. If an institution has a formal transfer prep program, but that student does not receive a formal award from the first institution, the first institution can count the student as a grad if the student fulfills the transfer prep program and transfers to another institution. KBOR does not track transfer prep specifically.
 - IPEDS allows institutions to count completers as ‘retained’ in retention rates for 2-year institutions under some circumstances. These are broken out separately for the index.
 - Types of degrees/awards. In order to count a student or award for IPEDS the student must be seeking a formal degree, certificate, or award. KBOR and institutions have not always defined these in the same way, and some awards/occupational programs have not always been collected by KBOR. The index counts postsecondary credit toward degrees, certificates, and stand-alone programs (occupational programs) if these have been submitted to KBOR. Any level of completion found within the specified timeframe is counted.
 - Expected time to degree. For the success index, no differentiation regarding the length of a degree program was made. KBOR evaluates whether a student completed or retained at the end of each entrance year whereas IPEDS looks at 150% of the time of the degree program.
 - Mergers. KBOR used translations for the merged institutions. It is uncertain how these were reported to IPEDS.

Institutional Profiles Notes – Kansas State University Veterinary Medical Center

General Notes:

1. The data in any tables that use the KHEDS AY Collection may have changed slightly in Academic Year 2010 through Academic Year 2014 due to a data clean-up which improved the quality of data. Due to this slight adjustment in data, these tables may not match exactly what was published in prior year data books.
2. Due to rounding, numbers may not match other published reports.
3. In FY 2020, the universities received varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.

Table A: Enrollment by Student Characteristics

1. Beginning with the January 2015 data book, KBOR is using KHEDS Academic Year (AY) data instead of the KBOR Student Demographics Report and the Kansas Higher Education Enrollment Report (KHEER) for the enrollment and demographics data in Table A. The KHEDS Academic Year consists of consecutive summer, fall, and spring terms (i.e. the 2014 Academic Year covers Summer 2013 + Fall 2013 + Spring 2014). This change was made to align the data book with other KBOR reports.
2. Demographic and enrollment data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly-updated dashboards, graphs and charts. KHEStats can be accessed at stats.kansasregents.org/.
3. A divisor of 30 is used to calculate FTE for undergraduate students in an academic year, while a divisor of 24 is used for graduate students.
4. Full-time students are defined as those enrolled in at least 24 credit hours in an academic year. Some institutions include additional factors for determining graduate student status when reporting to the National Student Clearinghouse, or for financial aid purposes, including GTA/GRA employment and/or enrollment in dissertation hours. IPEDS also uses additional criteria when determining graduate student status.
5. Profile enrollment and demographic data for KSU-Vet Med Center was derived from the Kansas State University's KHEDS AY submission by filtering on the major for each student.
6. Prior year FTE data has been rounded to better align with KHEStats and may not match FTE data in previously published data books.
7. "Residency by Exception" refers to students who were not domiciliary residents of Kansas at the beginning of the academic year, but are classified as Kansas residents for tuition purposes pursuant to an allowable exception per statute.
8. The "% Change" column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These number more accurately reflect the change in student population.
9. Beginning in AY 2011, institutions were required to report student's race/ethnicity according to definitions and parameters established by the U.S. Department of Education (IPEDS). According to these new definitions, a student's race/ethnicity can now be reported in four newly created or modified categories: Black or African-American, Asian, Native Hawaiian/Pacific Islander, and Two or more races. The other race/ethnicity reporting categories are White, Non-resident Alien, American Indian/Alaska Native, Asian, and Unknown. The Hispanic ethnicity category includes all students who reported a Hispanic ethnicity, regardless of their race selection.
10. Prior to 2015, completions data in this table came from the IPEDS Completions survey and certificates were not included.
11. KBOR staff have worked to align completions definitions to IPEDS. As a result, the decision was made to modify the "certificates" category, beginning with AY 2014, to include all post-secondary university certificates that lead to an industry recognized credential, license, or certification in standard reporting. Certificates that do not lead to an industry-recognized credential are included under the "Other Awards" category. Certificates presented in Table 3.6 are categorized to reflect this new system of classification.
12. Gross Building area – the floor area contained within the building measured to the internal face of the external walls.
13. Net assignable area - the gross area less the actual structural, mechanical, restrooms, custodial and circulation area.
14. Total Gross area - area measured to outside face of each enclosed floor of building, excluding the roof.
15. The space factor shown for classrooms and teaching laboratories is derived by dividing the net assignable square feet by the weekly student contact hours. Small space factors indicate better utilization. More efficient utilization is easier to obtain at

the larger institutions. The goal or standard particularly for the larger institutions is 0.83 for classrooms. Also, the goal for the classroom use is an average of 30 hours per week. For teaching laboratories the goal is an average of 20 hours use per week and a space factor of 3.75 or smaller.

Table B: Total Operating Expenditures by Fund

1. Starting in FY 2017, Kansas State University Veterinary Medical Center’s “Hospital Revenue Funds” are no longer part of the General Use Expenditures and are now counted in Restricted Use.

Institutional Profiles Notes – Kansas State University Extension Systems and Agricultural Research Programs (KSRE)

General Notes:

1. Kansas State University – Extension Systems & Agricultural Research Programs (KSRE) does not contain student enrollment and demographic data as KSRE primarily serves a research and service function.
2. Kansas State University – Extension Systems & Agricultural Research Programs (KSRE) was established as a separate budget unit in Fiscal year 1993 by the merger of Kansas Agricultural Experiment Station (KAES), the Cooperative Extension Service (CES), the International Grain, and the Meat and Livestock programs. All programs previously part of the KSU budget but under the jurisdiction of the Dean of Agricultural (except for the Office of Academic programs and Office of the Dean) are included in the separate agency administered by the Dean of Agriculture.
3. Kansas State University – Extension Systems & Agricultural Research Programs (KSRE) is a statewide network of educators sharing unbiased, research-based information and expertise on issues important to Kansas. It has established local, state, regional, national, and international partnerships. It is dedicated to a safe, sustainable, competitive food and fiber system and to strong, healthy communities, families, and youth through integrated research, analysis and education. With more than 125 years of research and 100 years of extension, KSRE has been improving the quality of life and standard of living for Kansans for a century. This integrated system connects the university to every county through locally based educators who serve as sources of objective information.
4. Extension Systems and Agricultural Research Programs of Kansas State University separate state agency for purpose of governor’s budget report and related legislative measures; title for such purpose. For the purpose of preparation of the governor's budget report and related legislative measure or measures for submission to the legislature, the Extension Systems and Agriculture Research Programs of Kansas State University shall be considered a separate state agency and shall be titled for such purpose as the "Kansas State University — Extension Systems and Agriculture Research Programs." The budget estimates and requests of such systems and programs shall be presented as a state agency separate from Kansas State University, and such separation shall be maintained in the budget documents and reports prepared by the director of the budget and the governor, or either of them, including all related legislative reports and measures submitted to the legislature.
5. Due to rounding, numbers may not match other published reports.
6. In FY 2020, the universities received varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.

Table B: Total Operating Expenditures by Fund

1. K-State Research and Extension requested and received permission to re-designate their federal land grant funds from General use to Restricted Use. Due to this reclassification, the other general use funds which were included in the FY 2017 Budget Request Document as the summary by funding source for FY 2015 actuals are not included in the FY 2018 Budget Request Document, which affects the amount used for “Other General Use” on Table B. While this change began with the FY 2017 actual figures, K-State Research and Extension adjusted their FY 2016 actuals to match the new FY 2017 budget structure in this years’ operating summary to provide better comparison between the two years.

Table D: General Use Operating Expenditures by Program

1. K-State Research and Extension does not have any general use Academic Support expenditures for FY 2016 due in part to the above note and also because the state general fund (SGF) accounts were included in a partial swap of funds from the Educational Building Fund for operating expenditures. The governor recommended and the Legislature approved partially reducing SGF appropriations but provided an equivalent amount in Educational Building Funding. In this specific case, the entire amount of SGF expenditures which typically occurred in the Academic Support program were transferred to the Educational Building Fund. As a result, the EBF fund source was not included in the General Use operating summaries. For FY 2019, K-State Research and Extension reflected no general use Physical Plant expenditures. This was due to a year end budget realignment within K-State Research and Extension which realigned some funding between Restricted Use and General Use to assist with some one-time General Use balances for that fiscal year.

Institutional Profiles Notes – Wichita State University

General Notes:

1. The data in any tables that use the KHEDS AY Collection may have changed slightly in Academic Year 2010 through Academic Year 2014 due to a data clean-up which improved the quality of data. Due to this slight adjustment in data, these tables may not match exactly what was published in prior year data books.
2. Due to rounding, numbers may not match other published reports.
3. In FY 2020, the universities received varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.

Table A: Enrollment by Student Characteristics

1. Beginning with the January 2015 data book, KBOR is using KHEDS Academic Year (AY) data instead of the KBOR Student Demographics Report and the Kansas Higher Education Enrollment Report (KHEER) for the enrollment and demographics data in Table A. The KHEDS Academic Year consists of consecutive summer, fall, and spring terms (i.e. the 2014 Academic Year covers Summer 2013 + Fall 2013 + Spring 2014). This change was made to align the data book with other KBOR reports.
2. Demographic and enrollment data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly-updated dashboards, graphs and charts. KHEStats can be accessed at stats.kansasregents.org/.
3. A divisor of 30 is used to calculate FTE for undergraduate students in an academic year, while a divisor of 24 is used for graduate students.
4. Full-time students are defined as those enrolled in at least 24 credit hours in an academic year. Some institutions include additional factors for determining graduate student status when reporting to the National Student Clearinghouse, or for financial aid purposes, including GTA/GRA employment and/or enrollment in dissertation hours. IPEDS also uses additional criteria when determining graduate student status.
5. Prior year FTE data has been rounded to better align with KHEStats and may not match FTE data in previously published data books.
6. “Residency by Exception” refers to students who were not domiciliary residents of Kansas at the beginning of the academic year, but are classified as Kansas residents for tuition purposes pursuant to an allowable exception per statute.
7. The “% Change” column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These number more accurately reflect the change in student population.
8. Beginning in AY 2011, institutions were required to report student’s race/ethnicity according to definitions and parameters established by the U.S. Department of Education (IPEDS). According to these new definitions, a student’s race/ethnicity can now be reported in four newly created or modified categories: Black or African-American, Asian, Native Hawaiian/Pacific Islander, and Two or more races. The other race/ethnicity reporting categories are White, Non-resident Alien, American Indian/Alaska Native, Asian, and Unknown. The Hispanic ethnicity category includes all students who reported a Hispanic ethnicity, regardless of their race selection.
9. Prior to 2015, completions data in this table came from the IPEDS Completions survey and certificates were not included.
10. KBOR staff have worked to align completions definitions to IPEDS. As a result, the decision was made to modify the “certificates” category, beginning with AY 2014, to include all post-secondary university certificates that lead to an industry recognized credential, license, or certification in standard reporting. Certificates that do not lead to an industry-recognized credential are included under the “Other Awards” category. Certificates presented in Table 3.6 are categorized to reflect this new system of classification.
11. Gross Building area – the floor area contained within the building measured to the internal face of the external walls.
12. Net assignable area - the gross area less the actual structural, mechanical, restrooms, custodial and circulation area.
13. Total Gross area - area measured to outside face of each enclosed floor of building, excluding the roof.
14. The space factor shown for classrooms and teaching laboratories is derived by dividing the net assignable square feet by the weekly student contact hours. Small space factors indicate better utilization. More efficient utilization is easier to obtain at the larger institutions. The goal or standard particularly for the larger institutions is 0.83 for classrooms. Also, the goal for

the classroom use is an average of 30 hours per week. For teaching laboratories the goal is an average of 20 hours use per week and a space factor of 3.75 or smaller.

Table A: Student Success Index

1. The data may have changed slightly for prior years due to the collection of additional data which improves the quality of data. Due to this slight adjustment in data, this table may not match exactly what was published in prior year data books.
2. Given the diverse population and varying mission of community colleges and technical colleges, the Student Success Index provides a more comprehensive measure of institutional effectiveness than traditional graduation and retention rates.
3. Outcomes for the Student Success Index are determined using data from both the KHEDS AY Collection and the National Student Clearinghouse. These outcomes are examined for an academic year cohort from the KHEDS AY Collection. The student is counted once per academic year for each institution. Translations have been made for merged institutions, and the current institution is used for the label. For completions, all completions reported to KBOR in the AY Completions File have been used. This may include stand-alone programs/occupational programs, certificates, and degrees. The segments on the index bar are mutually exclusive from left to right. Once the student is counted in one segment, that student is not counted in another segment.
4. The Student Success Index varies from typical IPEDS measures in the following ways:
 - The index uses an academic year cohort, not the fall cohort. As of the 2017-18 IPEDS collection, IPEDS switched from using the Fall Enrollment component to the 12-Month Enrollment component as the cohort for the Outcome Measures survey.
 - The entrance year is the academic year in which the student entered the Kansas' public postsecondary education system.
 - The index includes part-time and full-time students, as well as transfer students.
 - Exclusions. IPEDS allows exclusion of students from the cohort such as death or total and permanent disability; service in the armed forces (including those called to active duty); service with a foreign aid service of the federal government, such as the Peace Corps; or service on official church missions. KBOR does not track or remove exclusions.
 - Formal transfer prep programs. If an institution has a formal transfer prep program, but that student does not receive a formal award from the first institution, the first institution can count the student as a grad if the student fulfills the transfer prep program and transfers to another institution. KBOR does not track transfer prep specifically.
 - IPEDS allows institutions to count completers as 'retained' in retention rates for 2-year institutions under some circumstances. These are broken out separately for the index.
 - Types of degrees/awards. In order to count a student or award for IPEDS the student must be seeking a formal degree, certificate, or award. KBOR and institutions have not always defined these in the same way, and some awards/occupational programs have not always been collected by KBOR. The index counts postsecondary credit toward degrees, certificates, and stand-alone programs (occupational programs) if these have been submitted to KBOR. Any level of completion found within the specified timeframe is counted.
 - Expected time to degree. For the success index, no differentiation regarding the length of a degree program was made. KBOR evaluates whether a student completed or retained at the end of each entrance year whereas IPEDS looks at 150% of the time of the degree program.
 - Mergers. KBOR used translations for the merged institutions. It is uncertain how these were reported to IPEDS.

Institutional Profiles Notes – Emporia State University

General Notes:

1. The data in any tables that use the KHEDS AY Collection may have changed slightly in Academic Year 2010 through Academic Year 2014 due to a data clean-up which improved the quality of data. Due to this slight adjustment in data, these tables may not match exactly what was published in prior year data books.
2. Due to rounding, numbers may not match other published reports.
3. In FY 2020, the universities received varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.

Table A: Enrollment by Student Characteristics

1. Beginning with the January 2015 data book, KBOR is using KHEDS Academic Year (AY) data instead of the KBOR Student Demographics Report and the Kansas Higher Education Enrollment Report (KHEER) for the enrollment and demographics data in Table A. The KHEDS Academic Year consists of consecutive summer, fall, and spring terms (i.e. the 2014 Academic Year covers Summer 2013 + Fall 2013 + Spring 2014). This change was made to align the data book with other KBOR reports.
2. Demographic and enrollment data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly-updated dashboards, graphs and charts. KHEStats can be accessed at stats.kansasregents.org/.
3. A divisor of 30 is used to calculate FTE for undergraduate students in an academic year, while a divisor of 24 is used for graduate students.
4. Prior year FTE data has been rounded to better align with KHEStats and may not match FTE data in previously published data books.
5. “Residency by Exception” refers to students who were not domiciliary residents of Kansas at the beginning of the academic year, but are classified as Kansas residents for tuition purposes pursuant to an allowable exception per statute.
6. The “% Change” column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These number more accurately reflect the change in student population.
7. Beginning in AY 2011, institutions were required to report student’s race/ethnicity according to definitions and parameters established by the U.S. Department of Education (IPEDS). According to these new definitions, a student’s race/ethnicity can now be reported in four newly created or modified categories: Black or African-American, Asian, Native Hawaiian/Pacific Islander, and Two or more races. The other race/ethnicity reporting categories are White, Non-resident Alien, American Indian/Alaska Native, Asian, and Unknown. The Hispanic ethnicity category includes all students who reported a Hispanic ethnicity, regardless of their race selection.
8. Prior to 2015, completions data in this table came from the IPEDS Completions survey and certificates were not included.
9. KBOR staff have worked to align completions definitions to IPEDS. As a result, the decision was made to modify the “certificates” category, beginning with AY 2014, to include all post-secondary university certificates that lead to an industry recognized credential, license, or certification in standard reporting. Certificates that do not lead to an industry-recognized credential are included under the “Other Awards” category. Certificates presented in Table 3.6 are categorized to reflect this new system of classification.
10. Gross Building area – the floor area contained within the building measured to the internal face of the external walls.
11. Net assignable area - the gross area less the actual structural, mechanical, restrooms, custodial and circulation area.
12. Total Gross area - area measured to outside face of each enclosed floor of building, excluding the roof.
13. The space factor shown for classrooms and teaching laboratories is derived by dividing the net assignable square feet by the weekly student contact hours. Small space factors indicate better utilization. More efficient utilization is easier to obtain at the larger institutions. The goal or standard particularly for the larger institutions is 0.83 for classrooms. Also, the goal for the classroom use is an average of 30 hours per week. For teaching laboratories the goal is an average of 20 hours use per week and a space factor of 3.75 or smaller.

Table A: Student Success Index

1. The data may have changed slightly for prior years due to the collection of additional data which improves the quality of data. Due to this slight adjustment in data, this table may not match exactly what was published in prior year data books.
2. Given the diverse population and varying mission of community colleges and technical colleges, the Student Success Index provides a more comprehensive measure of institutional effectiveness than traditional graduation and retention rates.
3. Outcomes for the Student Success Index are determined using data from both the KHEDS AY Collection and the National Student Clearinghouse. These outcomes are examined for an academic year cohort from the KHEDS AY Collection. The student is counted once per academic year for each institution. Translations have been made for merged institutions, and the current institution is used for the label. For completions, all completions reported to KBOR in the AY Completions File have been used. This may include stand-alone programs/occupational programs, certificates, and degrees. The segments on the index bar are mutually exclusive from left to right. Once the student is counted in one segment, that student is not counted in another segment.
4. The Student Success Index varies from typical IPEDS measures in the following ways:
 - The index uses an academic year cohort, not the fall cohort. As of the 2017-18 IPEDS collection, IPEDS switched from using the Fall Enrollment component to the 12-Month Enrollment component as the cohort for the Outcome Measures survey.
 - The entrance year is the academic year in which the student entered the Kansas' public postsecondary education system.
 - The index includes part-time and full-time students, as well as transfer students.
 - Exclusions. IPEDS allows exclusion of students from the cohort such as death or total and permanent disability; service in the armed forces (including those called to active duty); service with a foreign aid service of the federal government, such as the Peace Corps; or service on official church missions. KBOR does not track or remove exclusions.
 - Formal transfer prep programs. If an institution has a formal transfer prep program, but that student does not receive a formal award from the first institution, the first institution can count the student as a grad if the student fulfills the transfer prep program and transfers to another institution. KBOR does not track transfer prep specifically.
 - IPEDS allows institutions to count completers as 'retained' in retention rates for 2-year institutions under some circumstances. These are broken out separately for the index.
 - Types of degrees/awards. In order to count a student or award for IPEDS the student must be seeking a formal degree, certificate, or award. KBOR and institutions have not always defined these in the same way, and some awards/occupational programs have not always been collected by KBOR. The index counts postsecondary credit toward degrees, certificates, and stand-alone programs (occupational programs) if these have been submitted to KBOR. Any level of completion found within the specified timeframe is counted.
 - Expected time to degree. For the success index, no differentiation regarding the length of a degree program was made. KBOR evaluates whether a student completed or retained at the end of each entrance year whereas IPEDS looks at 150% of the time of the degree program.
 - Mergers. KBOR used translations for the merged institutions. It is uncertain how these were reported to IPEDS.

Institutional Profiles Notes – Pittsburg State University

General Notes:

1. The data in any tables that use the KHEDS AY Collection may have changed slightly in Academic Year 2010 through Academic Year 2014 due to a data clean-up which improved the quality of data. Due to this slight adjustment in data, these tables may not match exactly what was published in prior year data books.
2. Due to rounding, numbers may not match other published reports.
3. In FY 2020, the universities received varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.

Table A: Enrollment by Student Characteristics

1. Pittsburg State University provided updated residency data for AY 2012, AY 2013 and AY 2015 due to an error in reporting the data to KBOR. Resident by Exception and Non-Resident data on PSU tables will not align with numbers in KHERS.
2. Beginning with the January 2015 data book, KBOR is using KHEDS Academic Year (AY) data instead of the KBOR Student Demographics Report and the Kansas Higher Education Enrollment Report (KHEER) for the enrollment and demographics data in Table A. The KHEDS Academic Year consists of consecutive summer, fall, and spring terms (i.e. the 2014 Academic Year covers Summer 2013 + Fall 2013 + Spring 2014). This change was made to align the data book with other KBOR reports.
3. Demographic and enrollment data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly-updated dashboards, graphs and charts. KHEStats can be accessed at stats.kansasregents.org/.
4. A divisor of 30 is used to calculate FTE for undergraduate students in an academic year, while a divisor of 24 is used for graduate students.
5. Full-time students are defined as those enrolled in at least 24 credit hours in an academic year. Some institutions include additional factors for determining graduate student status when reporting to the National Student Clearinghouse, or for financial aid purposes, including GTA/GRA employment and/or enrollment in dissertation hours. IPEDS also uses additional criteria when determining graduate student status.
6. Prior year FTE data has been rounded to better align with KHEStats and may not match FTE data in previously published data books.
7. “Residency by Exception” refers to students who were not domiciliary residents of Kansas at the beginning of the academic year, but are classified as Kansas residents for tuition purposes pursuant to an allowable exception per statute.
8. The “% Change” column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These number more accurately reflect the change in student population.
9. Beginning in AY 2011, institutions were required to report student’s race/ethnicity according to definitions and parameters established by the U.S. Department of Education (IPEDS). According to these new definitions, a student’s race/ethnicity can now be reported in four newly created or modified categories: Black or African-American, Asian, Native Hawaiian/Pacific Islander, and Two or more races. The other race/ethnicity reporting categories are White, Non-resident Alien, American Indian/Alaska Native, Asian, and Unknown. The Hispanic ethnicity category includes all students who reported a Hispanic ethnicity, regardless of their race selection.
10. Prior to 2015, completions data in this table came from the IPEDS Completions survey and certificates were not included.
11. KBOR staff have worked to align completions definitions to IPEDS. As a result, the decision was made to modify the “certificates” category, beginning with AY 2014, to include all post-secondary university certificates that lead to an industry recognized credential, license, or certification in standard reporting. Certificates that do not lead to an industry-recognized credential are included under the “Other Awards” category. Certificates presented in Table 3.6 are categorized to reflect this new system of classification.
12. Gross Building area – the floor area contained within the building measured to the internal face of the external walls.
13. Net assignable area - the gross area less the actual structural, mechanical, restrooms, custodial and circulation area.
14. Total Gross area - area measured to outside face of each enclosed floor of building, excluding the roof.
15. The space factor shown for classrooms and teaching laboratories is derived by dividing the net assignable square feet by the weekly student contact hours. Small space factors indicate better utilization. More efficient utilization is easier to obtain at

the larger institutions. The goal or standard particularly for the larger institutions is 0.83 for classrooms. Also, the goal for the classroom use is an average of 30 hours per week. For teaching laboratories the goal is an average of 20 hours use per week and a space factor of 3.75 or smaller.

Table A: Student Success Index

1. The data may have changed slightly for prior years due to the collection of additional data which improves the quality of data. Due to this slight adjustment in data, this table may not match exactly what was published in prior year data books.
2. Given the diverse population and varying mission of community colleges and technical colleges, the Student Success Index provides a more comprehensive measure of institutional effectiveness than traditional graduation and retention rates.
3. Outcomes for the Student Success Index are determined using data from both the KHEDS AY Collection and the National Student Clearinghouse. These outcomes are examined for an academic year cohort from the KHEDS AY Collection. The student is counted once per academic year for each institution. Translations have been made for merged institutions, and the current institution is used for the label. For completions, all completions reported to KBOR in the AY Completions File have been used. This may include stand-alone programs/occupational programs, certificates, and degrees. The segments on the index bar are mutually exclusive from left to right. Once the student is counted in one segment, that student is not counted in another segment.
4. The Student Success Index varies from typical IPEDS measures in the followings ways:
 - The index uses an academic year cohort, not the fall cohort. As of the 2017-18 IPEDS collection, IPEDS switched from using the Fall Enrollment component to the 12-Month Enrollment component as the cohort for the Outcome Measures survey.
 - The entrance year is the academic year in which the student entered the Kansas’ public postsecondary education system.
 - The index includes part-time and full-time students, as well as transfer students.
 - Exclusions. IPEDS allows exclusion of students from the cohort such as death or total and permanent disability; service in the armed forces (including those called to active duty); service with a foreign aid service of the federal government, such as the Peace Corps; or service on official church missions. KBOR does not track or remove exclusions.
 - Formal transfer prep programs. If an institution has a formal transfer prep program, but that student does not receive a formal award from the first institution, the first institution can count the student as a grad if the student fulfills the transfer prep program and transfers to another institution. KBOR does not track transfer prep specifically.
 - IPEDS allows institutions to count completers as ‘retained’ in retention rates for 2-year institutions under some circumstances. These are broken out separately for the index.
 - Types of degrees/awards. In order to count a student or award for IPEDS the student must be seeking a formal degree, certificate, or award. KBOR and institutions have not always defined these in the same way, and some awards/occupational programs have not always been collected by KBOR. The index counts postsecondary credit toward degrees, certificates, and stand-alone programs (occupational programs) if these have been submitted to KBOR. Any level of completion found within the specified timeframe is counted.
 - Expected time to degree. For the success index, no differentiation regarding the length of a degree program was made. KBOR evaluates whether a student completed or retained at the end of each entrance year whereas IPEDS looks at 150% of the time of the degree program.
 - Mergers. KBOR used translations for the merged institutions. It is uncertain how these were reported to IPEDS.

Table E: General Use Operating Expenditures by Object

1. Starting in FY 2017, Pittsburg State University’s “Classified – FTE” and “Classified – Expenditures” are no longer listed separately and now are included in “Unclassified – FTE” and “Unclassified – Expenditures” categories.

Institutional Profiles Notes – Fort Hays State University

General Notes:

1. The data in any tables that use the KHEDS AY Collection may have changed slightly in Academic Year 2010 through Academic Year 2014 due to a data clean-up which improved the quality of data. Due to this slight adjustment in data, these tables may not match exactly what was published in prior year data books.
2. Due to rounding, numbers may not match other published reports.
3. In FY 2020, the universities received varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.

Table A: Enrollment by Student Characteristics

1. Beginning with the January 2015 data book, KBOR is using KHEDS Academic Year (AY) data instead of the KBOR Student Demographics Report and the Kansas Higher Education Enrollment Report (KHEER) for the enrollment and demographics data in Table A. The KHEDS Academic Year consists of consecutive summer, fall, and spring terms (i.e. the 2014 Academic Year covers Summer 2013 + Fall 2013 + Spring 2014). This change was made to align the data book with other KBOR reports.
2. Demographic and enrollment data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly-updated dashboards, graphs and charts. KHEStats can be accessed at stats.kansasregents.org/.
3. A divisor of 30 is used to calculate FTE for undergraduate students in an academic year, while a divisor of 24 is used for graduate students.
4. Prior year FTE data has been rounded to better align with KHEStats and may not match FTE data in previously published data books.
5. “Residency by Exception” refers to students who were not domiciliary residents of Kansas at the beginning of the academic year, but are classified as Kansas residents for tuition purposes pursuant to an allowable exception per statute.
6. The “% Change” column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These number more accurately reflect the change in student population.
7. Beginning in AY 2011, institutions were required to report student’s race/ethnicity according to definitions and parameters established by the U.S. Department of Education (IPEDS). According to these new definitions, a student’s race/ethnicity can now be reported in four newly created or modified categories: Black or African-American, Asian, Native Hawaiian/Pacific Islander, and Two or more races. The other race/ethnicity reporting categories are White, Non-resident Alien, American Indian/Alaska Native, Asian, and Unknown. The Hispanic ethnicity category includes all students who reported a Hispanic ethnicity, regardless of their race selection.
8. Prior to 2015, completions data in this table came from the IPEDS Completions survey and certificates were not included.
9. KBOR staff have worked to align completions definitions to IPEDS. As a result, the decision was made to modify the “certificates” category, beginning with AY 2014, to include all post-secondary university certificates that lead to an industry recognized credential, license, or certification in standard reporting. Certificates that do not lead to an industry-recognized credential are included under the “Other Awards” category. Certificates presented in Table 3.6 are categorized to reflect this new system of classification.
10. Gross Building area – the floor area contained within the building measured to the internal face of the external walls.
11. Net assignable area - the gross area less the actual structural, mechanical, restrooms, custodial and circulation area.
12. Total Gross area - area measured to outside face of each enclosed floor of building, excluding the roof.
13. The space factor shown for classrooms and teaching laboratories is derived by dividing the net assignable square feet by the weekly student contact hours. Small space factors indicate better utilization. More efficient utilization is easier to obtain at the larger institutions. The goal or standard particularly for the larger institutions is 0.83 for classrooms. Also, the goal for the classroom use is an average of 30 hours per week. For teaching laboratories the goal is an average of 20 hours use per week and a space factor of 3.75 or smaller.

Table A: Student Success Index

1. The data may have changed slightly for prior years due to the collection of additional data which improves the quality of data. Due to this slight adjustment in data, this table may not match exactly what was published in prior year data books.
2. Given the diverse population and varying mission of community colleges and technical colleges, the Student Success Index provides a more comprehensive measure of institutional effectiveness than traditional graduation and retention rates.
3. Outcomes for the Student Success Index are determined using data from both the KHEDS AY Collection and the National Student Clearinghouse. These outcomes are examined for an academic year cohort from the KHEDS AY Collection. The student is counted once per academic year for each institution. Translations have been made for merged institutions, and the current institution is used for the label. For completions, all completions reported to KBOR in the AY Completions File have been used. This may include stand-alone programs/occupational programs, certificates, and degrees. The segments on the index bar are mutually exclusive from left to right. Once the student is counted in one segment, that student is not counted in another segment.
4. The Student Success Index varies from typical IPEDS measures in the followings ways:
 - The index uses an academic year cohort, not the fall cohort. As of the 2017-18 IPEDS collection, IPEDS switched from using the Fall Enrollment component to the 12-Month Enrollment component as the cohort for the Outcome Measures survey.
 - The entrance year is the academic year in which the student entered the Kansas' public postsecondary education system.
 - The index includes part-time and full-time students, as well as transfer students.
 - Exclusions. IPEDS allows exclusion of students from the cohort such as death or total and permanent disability; service in the armed forces (including those called to active duty); service with a foreign aid service of the federal government, such as the Peace Corps; or service on official church missions. KBOR does not track or remove exclusions.
 - Formal transfer prep programs. If an institution has a formal transfer prep program, but that student does not receive a formal award from the first institution, the first institution can count the student as a grad if the student fulfills the transfer prep program and transfers to another institution. KBOR does not track transfer prep specifically.
 - IPEDS allows institutions to count completers as 'retained' in retention rates for 2-year institutions under some circumstances. These are broken out separately for the index.
 - Types of degrees/awards. In order to count a student or award for IPEDS the student must be seeking a formal degree, certificate, or award. KBOR and institutions have not always defined these in the same way, and some awards/occupational programs have not always been collected by KBOR. The index counts postsecondary credit toward degrees, certificates, and stand-alone programs (occupational programs) if these have been submitted to KBOR. Any level of completion found within the specified timeframe is counted.
 - Expected time to degree. For the success index, no differentiation regarding the length of a degree program was made. KBOR evaluates whether a student completed or retained at the end of each entrance year whereas IPEDS looks at 150% of the time of the degree program.
 - Mergers. KBOR used translations for the merged institutions. It is uncertain how these were reported to IPEDS.

Table E: General Use Operating Expenditures by Object

1. Starting in FY 2018, Fort Hays State University's "Classified – FTE" and "Classified – Expenditures" are no longer listed separately and now are included in "Unclassified – FTE" and "Unclassified – Expenditures" categories.

Institutional Profiles Notes – Kansas Board of Regents

General Notes:

1. The Board Mission is: The Kansas Board of Regents shall pursue measurable continuous improvement in the quality and effectiveness of the public postsecondary educational system in Kansas, while expanding participation for all qualified Kansans. To achieve that mission, the Board will demand accountability, focus resources, and advocate powerfully (adopted 2007).
2. For FY 2020, Board Office total expenditures reflect COVID-19 funding of \$56,769. This amount is only reflected in the Board Office Total table and not in any of the other three tables presented.

Board Office – Student Financial Aid: Total Operating Expenditures by Fund

1. The program goal for Student Financial Aid is to administer student financial aid programs efficiently and effectively, in accordance with statutes, regulations, policies and procedures.

Board Office - Administration: Total Operating Expenditures by Fund

1. The program goal for Administration is to provide effective and efficient staff support to the Board of Regents and the postsecondary institutions they govern and coordinate. The Administration program comprises the following core objectives:
 - a. Executive Management: including legal, communications, governmental relations and Board strategic and administrative support.
 - b. Academic Affairs: including academic affairs policy work, administration of adult education, and regulation of out-of-state, private postsecondary education providers.
 - c. Career and Technical Education: including work force development policy work, the support of the Technical Education Authority, and the administration of the federal Carl Perkins program.
 - d. Finance and Administration: including fiscal and administrative policy work, the distribution of state funding that is allocated to 32 public colleges and universities, state university facilities planning, office operations, data, research and planning, and the administration of the Board’s 16 student financial assistance programs.

Board Office – Postsecondary Education: Total Operating Expenditures by Fund

1. The broad Postsecondary Education program comprises of various programs that include flow-through funding allocated by the Board to the 32 public postsecondary institutions – state universities, community colleges, technical college, and Washburn University and any new SGF enhancement appropriated to the Board for distribution to all public postsecondary institutions or targeted to specific sectors or institutions.

STATE UNIVERSITY DATA BOOK

Glossary

January 2021

★ LEADING HIGHER EDUCATION ★

KANSAS BOARD OF REGENTS

GLOSSARY

Academic Support Program - Includes activities carried out in direct support of one or more of the three primary programs (Instruction, Research, and Public Service); activities include library services, museums, academic administration, course/curriculum development, and academic personnel development.

AY - Abbreviation for academic year; the academic year for the Regents institutions (and the state) refers to a sequence of Summer, Fall, Spring, the given year being the year in which the spring semester occurs (i.e. the 2019 Academic Year for data collection, covers Summer 2018 + Fall 2018 + Spring 2019). This is referred to as the data collection academic year.

- For **tuition and fees only**, “Academic Year” refers to a sequence of Fall, Spring, and Summer, the given year being the year in which the spring and summer semesters occur (i.e. the 2019 Academic Year for tuition, covers Fall 2018 + Spring 2019 + Summer 2019).
- Please note that the difference in academic year is for **tuition and fees only**, and all other tables or notes referencing AY in this publication are referring to **data collection** academic year.

Auxiliary Enterprises - Includes activities such as student unions, parking facilities, student health centers, and residence halls, which are self-supporting from user charges.

Completion - Completion refers to a series of reports and graphs designed to measure students who achieved a particular credential type or graduated with a particular degree. Graphs and charts have been designed to look at completions by a variety of categories including credential type, program type, age groups, race/ethnicity, gender, and residency status.

Continuing Instructional Faculty – Full time instructional faculty who were appointed during both the previous fiscal year and the present fiscal year.

Continuing Research and Public Service Faculty – Full time research and public service faculty who were appointed during both the previous fiscal year and the present fiscal year.

Credential Type - The credential type is the particular certificate or degree type a student earns in a given academic year. Credential types include short-term certificates, certificates, associate degrees, bachelor’s degrees, master’s degrees and doctoral degrees.

DBTF Section I: Salaries and Tenure Status of Full-Time Instructional Faculty - Completed to reflect salaries and appointments of full-time instructional/research/public service personnel, with faculty rank and persons who have faculty credentials, faculty experience and faculty assignments, but who do not hold faculty rank, whose **primary** assignment is **instruction**. Primary is defined as 50 or more percent. However, if an individual is appointed exactly 50 percent in instruction and 50 percent in some other activity (i.e. research or public service), the appointment should be counted in the totals for instruction. Lecturers or no rank faculty who do not have faculty credentials, faculty experience and faculty assignments, and faculty in phased retirement should not be included.

DBTF Section II: Major Fringe Benefits for Full-Time Instructional Faculty - Report the projected fringe benefit expenditures for the fiscal year in each of the categories enumerated. Excluded from the computations are employee contributions.

DBTF Section III: Salaries and Percentage Increase for Continuing Instructional Faculty – (1) Includes the total number of full-time instructional faculty, identified in Section I who were appointed during both the previous fiscal year and the present fiscal year. Omit from this total, new appointees during the current fiscal year, appointees who left at the end of the previous fiscal year, and those who did not have the same length contract during both years, unless the second year is prorated to the same length as the first. Include appointees who receive a promotion in faculty rank (i.e., from Associate Professor to Full Professor) under the former rank. Appointees who received a promotion or change in status (i.e., from instructional ranks to administration) should not be counted. **(2)** Also includes the gross salaries reflecting as of the November 1st payroll. For the individuals included above. Since this report includes only those continuing instructional faculty, the totals (both personnel and dollars) should be smaller than the sum of salaries reported in Section 1.

DBTF Section IV: Distribution of Full-Time Instructional Faculty, Current Fiscal Year - Show the distribution of gross salaries, excluding fringe benefits, for those faculty members listed in Section I. The total number of personnel should correspond to those listed in the categories of Section I. Provide a separate detailing of nine and twelve-month faculty. Do not convert 12-month personnel to a 9-month basis. The salary ranges on this table align with those used in the AAUP Faculty Survey.

DBTF Section V: Salaries and Tenure Status of Full-Time Research and Public Service Faculty - Section V is identical in format to Section I; however, it is designed to capture salary and tenure data for full-time persons, with faculty rank, and persons who have faculty credentials, faculty experience and faculty assignments, but who do not hold faculty rank, having primary assignment (defined as 50 or more percent) in Research or Public Service. However, as mentioned in Section I, an individual having exactly 50 percent of their assignment in instruction and 50 percent in Research and/or Public Service would be recorded in Section I. The sum of Sections I and V will be used to state total full-time faculty appointments, obviously excluding those having more than half of their assignment in activities other than instruction/research/and public service. The definitions of data to be reported in the various columns of Section V are identical to that listed in Section I.

DBTF: Section VI: Salaries and Percentage Increases for Unclassified Personnel - Section VI will provide a summary of unclassified salary increases during the current fiscal year. Parts A-C of the report are designed to reflect salary increases to continuing personnel in various categories. Part D of the report is designed to capture salary increases to various categories of non-continuing personnel.

DBTF Section VII: Range of Unclassified Salary Increases, Continuing Personnel - Section VII is designed to capture the range of unclassified salary increases granted during the fiscal year. Enter the total number of continuing unclassified persons, both faculty and non-faculty, receiving salary increases in each of the percentage ranges enumerated in Section VII. The grand total of Section VII should equal the sum of continuing personnel enumerated in Section VI column 1, Sections A, B and C.

DBTF Section VIII: Tenure Summary of Institutional Personnel - Section VIII will provide a headcount enumeration of all tenured personnel and personnel occupying tenure eligible positions on the reporting date. As this is a report of headcount, individuals holding tenure are counted as 1.0, regardless of their full-time equivalence for budgeting purposes. Count the individual in the activity where they spend the largest percentage of their time. If an individual has an appointment of exactly 50 percent, count them in the first row in which a portion of their time is budgeted. In all cases column 3 is computed by dividing column 2 by column 1. Specific elements are as follows:

DBTF Section IX: Faculty by Age and Discipline - The purpose of Section IX is capture of data concerning total faculty members, having primary responsibilities in instruction, research and public service by age and department, during the current fiscal year. Enter the number of faculty in each of the age categories and in each department. (Note: Section IX is

designed to be a report on headcount. Due to split appointments, the sum of totals for individual departments may exceed the grand total. **However, the grand total should be an unduplicated headcount and should equal the sum of faculty reported in columns 1 and 5 of Sections I and V.)**

DBTF Section X: Faculty by Gender and Racial/Ethnic Category - The purpose of Section X is capture of data concerning gender and ethnic categories of faculty having primary responsibilities in instruction, research and public service during the current fiscal year. **The grand total should equal the sum of faculty reported in columns 1 and 5 of Sections I and V.** The racial and ethnic categories are identical to those used in the IPEDS Fall Staff Survey. The definitions from the IPEDS Fall Staff Survey should be used to complete Section X.

DBTF Section XI: Departures by Rank and Type - The purpose of Section XI is capture of data concerning full-time tenured and tenure track ranked faculty in instruction, research and public service, who resigned, retired, or were terminated from the institution during the most recently completed fiscal year. Included are full-time faculty with primary assignment in the areas of instruction, research, or public service and having the ranks of instructor, assistant professor, associate professor and professor. The definition of full-time includes personnel on 9-month and 12-month appointments but excludes personnel employed as graduate assistants or employed on a less than full-time basis. Individuals departing the institution due to death are not included in this report.

DBTF Section XII: Retirements by Age and Department - The purpose of Section XII is capture of data concerning faculty retirements, among tenured and tenure track ranked faculty, during the most recently completed fiscal year, by age and department. Enter the number of ranked full-time faculty, with primary assignment in instruction, research, or public service who retired by age at the time of retirement and by department.

DBTF Section XIII: Budgeted FY 2015 FTE Positions by Program - The focus of this section will be reporting of budgeted positions. This information has been collected under separate cover from university budget officers for many years. It is being included in the consolidated personnel report for purposes of convenience and consistency. Identify budgeted FTE positions in each of the budgetary programs for FY 2015 Data are gathered separately for unclassified and classified positions. Additionally, data are gathered separately for general use and restricted use positions.

Education Program - A substantial component of a University budget consisting of the sum of (1) the Instruction Program, (2) the Academic Support Program, (3) the Student Services Program and (4) the Institutional Support Program.

Entrance Year - The Entrance Year is defined as the year in which a student or group of students first entered Kansas' higher education system by enrolling in one of the system's 32 institutions.

Educational and General Program (E & G) - The component of the University budget consisting of all activities, except auxiliary enterprises. The Educational and General Budget includes the Educational Program plus expenditures for Research, Public Service, Scholarships and the Physical Plant.

Facility Condition – Current overall condition of a building determined by a Facility Condition Index (FCI) value which reflects the condition of each building and the items that must be completed to either increase the value of the building or result in a significant renovation or demolition. To see a breakdown of each FCI value rating, refer to **Section V Notes page** located at the back of Section V tables.

FTE - Abbreviation for full time equivalent. For fall enrollment, one FTE student is represented by 15 semester credit hours for undergraduate and 12 semester credit hours for graduate students. For academic year enrollment, one FTE is represented by 30 credit hours of enrollment in an academic year for undergraduates and 24 credit hours of enrollment for graduate students in an academic year.

In relation to budgeted staff positions, FTE represents the sum of (1) budgeted full time positions and (2) budgeted part-time positions equated to full time. There are different types of faculty FTE members:

- **Full Time Faculty Equivalent** – Staff who have faculty instructional/research/public service personnel, with faculty rank. This does not include lecturers, no rank faculty, or faculty in phased retirement.
- **Full Time Instructional Faculty** – Full time staff with faculty rank having primary assignment (50 or more percent) in Instruction.
- **Full Time Research and Public Service Faculty** – Full time staff with faculty rank having primary assignment (50 or more percent) in Research or Public Service.

FY - Abbreviation for fiscal year; the fiscal year for the Regents institutions (and the state) covers the period July 1 through the following June 30.

General Fee Funds - The funds to which revenue from tuition charges are deposited. Expenditures for General Fee Funds are one of the major components of the General Use budget.

General Use Funds - One of two major sources of funding of Regents institutions' operating budgets; general use funds consist of state general fund appropriations, general fee (tuition) revenue, hospital revenue (KSUVMC only), federal land grant funds (KSU only), and medical scholarship repayment funds (KUMC only).

Graduate Research Assistants – Graduate student support personnel who are paid with research dollars and support research activities.

Graduate Teaching Assistants – Graduate student support personnel who are paid with instructional dollars and support credit hour production.

Gross Building Area – Floor area contained within the building measured to the internal face of the external walls.

Headcount – Headcount is defined as the number of students enrolled in one or more postsecondary courses.

Institutional Support Program - Consists of activities carried out to provide for both the day-to-day functioning and the long-term viability of the institution as an operating organization; such activities include executive management, fiscal operations, general administrative services, logistical services and public relations/development.

Instruction Program - Includes activities related to the design and teaching of courses.

KHEStats – Abbreviation for the Kansas Higher Education Statistics. It is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHERS allows users to view trends, filter reports, and perform comparisons through regularly-updated dashboards, graphs and charts. KHEStats can be accessed at stats.kansasregents.org.

KSRE- Kansas State University Extension Systems and Agricultural Research Programs, commonly referred to as KSRE, is a unit of Kansas State University which primarily serves a research function.

Net Assignable Area – The gross area less the actual structural, mechanical, restrooms, custodial and circulation area. See “Gross Area” for further explanation if needed.

Operating Budgets - The total budget for all university activities with the exception of capital improvements.

Other Graduate Assistants – All graduate assistants who are not teaching or research assistants.

Other Operating Expenditures (OOE) - All operating expenditures of the Regents institutions other than those made for salaries and utilities; OOE commonly includes expenditures for faculty and staff travel, library acquisitions, equipment purchases, telecommunications, and supplies.

Physical Plant Program - Consists of those activities related to maintaining buildings and grounds, providing utility services, and planning and designing expansions and modifications of facilities.

Primary Faculty Assignment – 50 or more percent time devoted to a specific activity (research, instruction, public service). If an individual is appointed exactly 50 percent to instruction and 50 percent to another activity, the position is counted in the totals for instruction.

Public/Patient Service Program - Includes program elements established to make available to the public the various unique resources and capabilities of the institution for the purpose of responding to a community need; activities include patient care (KSUVMC only), community services, public broadcasting, and cooperative extension.

Public Service - Expenses for all activities budgeted specifically for public service and for activities established primarily to provide noninstructional services beneficial to groups external to the institution.

Race / Ethnicity (student)- Starting in fall 2010, state universities were required to report student's race/ethnicity according to definitions and parameters established by U.S. Department of Education (IPEDS). According to these new definitions, universities are now able to report student's race/ethnicity in four newly created or modified categories: *Black or African-American, Asian, Native Hawaiian/Pacific Islander, and Two or more races*. The other race/ethnicity reporting categories are *White, Non-resident Alien, American Indian/Alaska Native, Asian, and Unknown*. The Hispanic ethnicity category includes all students who reported a Hispanic ethnicity, regardless of their race selection. Due to these race/ethnicity modifications, starting in fall 2010, the students in the Hispanic ethnicity category increased; the students in the "Unknown" category decreased.

Relative Funding - This term refers to financial comparisons between Regents institutions and designated peer institutions. Typically, the comparison is expressed as a percentage. Therefore, relative funding of 90 percent would indicate that for every dollar the peers are spending, our institutions are spending 90 cents.

Replacement Cost – Present day replacement cost of a similar function asset at pre-loss condition, which may not necessarily be the market value of the item and is typically distinguished from the actual cash payment which includes a deduction for depreciation.

Research Program - Includes activities intended to produce one or more research outcomes, including the creation of knowledge, the organization of knowledge, and the application of knowledge.

Restricted Use Funds - One of two major sources of funding of Regents institutions' operating budgets; restricted use funds include all revenue from: gifts, grants and contracts from federal, state, local, and private sources; student fees other than tuition; all income from the operations of auxiliary enterprises; and all other revenues not designated as general use funds.

Retirements – Retirements among tenured and tenure track ranked faculty during the most recently completed fiscal year.

Required Fees – Required fees include mandatory fees generally paid by all students. They do not include other fees institutions charge on a conditional basis (such as housing, certain lab fees, etc).

Scholarships/Fellowships Program - Includes financial assistance provided to students in the form of grants and

scholarships.

Service Clearing Operations - Self-supporting operations, such as computing, printing, central stores, and central motor pool, which provide services for a fee to other institutional units.

Shrinkage - A budgeted reduction in the institution's total gross salary budget to allow for salary savings caused by employee turnover. Shrinkage is budgeted by the institutions based upon percentage rates established by the Division of the Budget, as modified by the Legislature.

State General Fund - The fund to which much of state tax revenues are deposited and the fund from which the Regents institutions receive virtually all state tax support for their operating budgets.

Student Service Program - Includes activities designed to contribute to the emotional and physical well-being of students; such activities include social/cultural development, counseling/career guidance, financial aid administration, student recruitment/admissions/records, and student service administration.

Student Success Index - The Student Success Index refers to a broad indicator developed specifically to provide a more comprehensive picture of student success across the sectors of higher education within the state of Kansas. The index accounts not only for graduates but also for those students who are retained, that is, still pursuing an education, either at the institution in which they first enrolled or another institution within or outside the state's higher education system. A separate index is available for each of the four sectors at stats.kansasregents.org/, on the "Student Success Index" tab.

Tenure Appointments – Total full time instructional faculty members who are either tenured or are in positions which lead to consideration for tenure.

Tenured Persons – Total full time instructional faculty who have tenure.

Total Gross Area – Area measured to outside face of each enclosed floor of building, excluding the roof.

Total Salaries – The total fiscal year gross salary amount effective July 20 for faculty rounded to the nearest whole dollar. Exclusions in the total are payments for extra loads, summer teaching, and other stipends. The full salary amount for departmental chairmen is included in this total.

Unclassified Salaries - Salaries of unclassified employees, i.e. employees whose appointment and salaries are determined either by the Board of Regents or the institution's administration. Unclassified employees include faculty, presidents, the chancellor, most top-level administrators, and all other employees who are not classified employees, or the equivalent.

University Support Staff – Employees who were formerly classified civil service employees, i.e. employees whose salaries are determined according to a civil service pay plan established by the Legislature and who converted to university support staff pursuant to K.S.A 76-715a. All university support staff would be on regular permanent position with the only difference being that the administration of employment will be handled at the university level, and not the state. These employees typically include clerks, secretaries, custodians, police officers and skilled workers.
