Eligible Recipients

Scope of Work

The Kansas Talent Development Grant is focused on the five pillars of [America's Talent Strategy](#) and addresses the needs of Kansas employers by supporting programs to prepare a skilled workforce in high-demand, high-wage occupations. Applicants must identify at least one pillar of the Talent Strategy and develop a project centered around the goals described in that pillar. Examples of goals that may be achieved at the institutional level include, but are not limited to:

Pillar I: Industry-Driven Strategies

Expanding work-based learning, such as Registered Apprenticeships, and aligning education curricula with employer needs to ensure skill matches job demand.

Pillar II: Worker Mobility

Connecting more Kansans to the workforce by targeting outreach to job-seeking populations, streamlining credentials (including industry recognized certifications), and prioritizing CTE credit for prior learning (including military CTE credit articulation).

Pillar III: Integrated Systems

Breaking down silos between academic departments, career services, and regional partners to create more efficient "one-stop" career pathways for workers and employers.

Pillar IV: Accountability

Developing stronger data reporting systems to ensure funding is directed toward programs with proven, measurable outcomes for high-wage, high-demand jobs. (Data must be reported to KHEDS in one of the data collections – AY, follow-up, etc.)

Pillar V: Flexibility and Innovation

Updating curricula to include AI literacy and emerging technology, along with offering accelerated, modularized training for rapid reskilling.
