Building a Future

Higher Education's Commitment to Kansas Families, Businesses, and the Economy

1. Helping Kansas families
2. Supporting Kansas businesses
3. Advancing economic prosperity

KANSAS POSTSECONDARY TECHNICAL EDUCATION AUTHORITY GOALS 2024-2025

Goals

1. Explore opportunities to diversify the funding base for Adult Education services to ensure expansion and sustainability of those services. Activities could include identification and active pursuit of potential funding sources such as grants, private partnerships, and government funding programs.
2. Identify and share best practices in reducing and/or eliminating the actual fees high school students participating in the Excel in CTE programs are assessed and ensure actual costs and potential subsidies are adequately communicated.
3. Explore methods to ensure data used to calculate the components of the instructional cost model represent actual costs.
4. Resume program performance reviews using previously established criteria to validate and communicate the value of technical education in developing a skilled workforce and meeting the needs of business and industry.
5. Improve collaboration and integration of programs between Community Colleges and Technical Colleges and Adult Education centers to streamline joint programs, educational pathways, and communication channels ensuring seamless transitions for learners and between institutions.
6. Explore a methodology to share best practices and communicate student participation rates in work-based learning opportunities.
7. Work with Commerce in expanding the apprenticeship model and include a method for identifying and reporting the number of apprenticeships established and the number of apprentices participating.
8. Explore a method to report participation, promote awareness, and emphasize business & industry partnerships and the value of customized training occurring at the institutions using input from community colleges, technical colleges, and universities.
9. Enhance military articulation and support efforts.
10. Explore opportunities to enhance corrections programs and methods to communicate progress to meet workforce needs.

MEETING AGENDA

The Kansas Postsecondary Technical Education Authority’s Technical Program and Curriculum Committee will meet virtually through Zoom.

Thursday, January 16, 2025

- I. **Call To Order** Chair Mike Beene

- II. **Approval of Minutes** Chair Mike Beene p. 2

- III. **Consideration of Discussion Agenda**
 - A. *Act on New Career and Technical Education Program:* Charmine Chambers, Director p. 4
 - *Cowley Community College: Electrical Technology (46.0302)* for Workforce Development

 - B. *Act on Excel in Career Technical Education Fees:* Charmine Chambers, Director p. 6
 - *Cowley Community College: Electrical Technology (46.0302)* for Workforce Development

 - C. *Act on Promise Act Program:* Charmine Chambers, Director p. 8
 - *Cowley Community College: Electrical Technology (46.0302)* for Workforce Development

- IV. **Next Meeting Reminder** Chair Mike Beene
 - February 13, 2025

- V. **Adjournment** Chair Mike Beene

**KANSAS POSTSECONDARY
TECHNICAL EDUCATION AUTHORITY**
Technical Program and Curriculum Committee
MINUTES
December 5, 2024

The Kansas Postsecondary Technical Education Authority’s Technical Program and Curriculum Committee met virtually via Zoom on December 5, 2024. Proper notice was given according to the law.

MEMBERS PRESENT: Mike Beene, Chair
 Cindy Hoover, Vice Chair
 Debra Mikulka
 Ray Frederick, Jr.
 Natalie Clark
 Mark Hess

MEMBERS ABSENT: Dr. Tiffany Anderson

Chair Beene called the meeting to order at 3:02 p.m.

APPROVAL OF MINUTES

Chair Beene called for a motion and a second to endorse the minutes from the meeting conducted on October 17, 2024. Member Ray Frederick made the motion for approval, which was seconded by Member Cindy Hoover. The motion was carried.

CONSIDERATION OF DISCUSSION AGENDA

I. ACT ON CONSTRUCTION TECHNOLOGY ARTICULATED CREDIT WITH KANSAS STATE DEPARTMENT OF EDUCATION

Crystal Roberts, Associate Director for Workforce Development, presented essential details regarding the objectives of Program Alignment, which aims to improve technical education by aligning specific technical programs across five distinct phases.

The realignment of the construction technology program by the Kansas Board of Regents (KBOR) and the update of the construction and design pathway by the Kansas State Department of Education (KSDE) are scheduled for implementation in the fall of 2025. Following the approval from the TEA, the crosswalk presented in the committee packet will be transformed into the statewide Construction Technology Articulation Map, facilitating the alignment of secondary coursework with postsecondary coursework.

The KSDE to KBOR Articulated Credit Alignment grant utilizes a representative, or representatives, from the selected program area with experience in the postsecondary alignment process and in the review of the secondary level pathway courses to lead the articulation discussions. The individual chosen as the grant recipient for this project was Joseph Dobbs from Hays Tech Northwest.

Faculty and administrators from sixteen institutions involved in the Construction Technology program, along with staff from KSDE and KBOR, convened to discuss the proposed articulated credit crosswalk. The session featured guest speaker PJ Riley, who represented the Build Up Kansas Initiative and offered further insights into the crosswalk being presented. Over the past 15 months, he has visited approximately 100 schools, many of

which lack dual credit agreements for college courses. He emphasized the advantages of enabling students across the board to articulate credit for courses that correspond with construction technology programs.

Member Mark Hess moved to approve the Construction Technology Articulated Credit Crosswalk and place it on the consent agenda for the full TEA meeting. Member Natalie Clark seconded, and the motion carried.

II. ACT ON REQUEST(S) FOR DEGREE AND/OR CERTIFICATE PROGRAMS FROM COMMUNITY COLLEGES AND TECHNICAL COLLEGES

Charmine Chambers, the Director of Workforce Development, presented the proposal from Hutchinson Community College (HCC) to provide a Technical Certificate B for 38 credit hours, and a 62-credit hour Associate of Applied Science degree in Barbering. At present, there are no public institutions that offer a comparable program according to the CIP code and/or program title.

Kansas Department of Labor data is not available for Barbering, and HCC worked with employers to provide data regarding hiring needs. The college intends to launch the proposed program in January 2025, with an estimated total initial cost of \$124,028. HCC anticipates enrollment of 10 students the first year, and 20 full-time and 20 part-time students in years two and three. Jillene Cunningham, Co-Chair of the Department of Agriculture, Business, Computer, and Technology will oversee the program.

Committee members discussed the procedures established by the Kansas State Board of Barbering, including contact hours required, and the current number of private barbering colleges within the state. Curriculum requirements from the Kansas Board of Barbering have been included in the proposed program, and HCC explained that the program is nearing the conclusion of their application process to become a licensed training provider approved by the Board of Barbering.

Chair Mike Beene requested a motion to approve Hutchinson Community College's application for a Certificate B and an Associate of Applied Science degree in Barbering, pending accreditation from the Kansas State Board of Barbering, and to include this item on the consent agenda. Vice Chair Cindy Hoover proposed the motion, which was seconded by Member Mark Hess, and the motion carried.

NEXT MEETING REMINDER

Chair Mike Beene announced that the next Technical Program and Curriculum Committee Meeting would occur on Thursday, January 16, 2025. He also reminded the group that the upcoming TEA meeting, scheduled for December 19th, will be held via Zoom.

ADJOURNMENT

Mike Beene expressed his gratitude to the staff for their contributions before concluding the meeting at 3:43 p.m.

III. Consideration of Discussion Agenda

A. *Act on New Career and Technical Education Program(s):* Charmine Chambers, Director for Workforce Development

Summary and Staff Recommendation

To develop and enhance the talent pipeline for Kansas business and industry, new programs and/or additional programs are required. The Board office received a request from Cowley Community College to offer a Technical Certificate B (33 credit hours), Technical Certificate C (49 credit hours) and an Associate of Applied Science degree (60 credit hours) in Electrical Technology.

The program proposal addressed criteria requested and was subject to the 10-day comment period required by Board policy. The program was reviewed by the Technical Education Authority and is recommended for approval.

Background

Community and technical colleges submit requests for new certificate and degree programs addressing criteria outlined in KBOR policy, including but are not limited to the following: program description, demand for the program, duplication of existing programs, faculty requirements, costs and funding, and program approval at the institution level.

Description of Proposed Programs:

Cowley Community College (CCC) requests approval of the following program:

- Electrical Technology (46.0302) – Technical Certificate B/33 credit hours, Technical Certificate C/49 credit hours, and Associate of Applied Science degree/60 credit hours.

The U.S. Department of Education’s Classification of Instructional Programs (CIP Code) 46.0302 describes an Electrician program as one that prepares individuals to apply technical knowledge and skills to install, operate, maintain, and repair electric apparatus and systems such as residential, commercial, and industrial electric-power wiring; and DC and AC motors, controls, and electrical distribution panels. The curriculum includes instruction in the principles of electronics and electrical systems, wiring, power transmission, safety, industrial and household appliances, job estimation, electrical testing and inspection, and applicable codes and standards.

Cross walking the proposed CIP Code 46.0302 (Electrician) to occupations resulted in a match to Standard Occupation Classification code (SOC): 47-2111 Electrician, which is defined as an occupation in which one would install, maintain, and repair electrical wiring, equipment, and fixtures. Ensure that work is in accordance with relevant codes. Individuals may install or service streetlights, intercom systems, or electrical control systems.

Cowley Community College (CCC) explained that the program proposal was the result of requests for the program from local business and industry. Mayfield Electric and Potucek Electric were involved in the program development.

The proposed program consists of a 33-credit hour Technical Certificate B, a 49-credit hour Certificate C, and a 60-credit hour Associate of Applied Science degree. Students will earn OSHA certification as well as be prepared to sit for the Journeyman Exam and National Center for Construction Education & Research (NCCER) certifications. CCC anticipates enrollment of 10 students the first year, and 20 students in year two. Electrical Technology is a statewide aligned program, and the proposal meets the aligned requirements.

The Kansas Department of Labor Long-term Occupation Projections 2022-2032 indicate a statewide change of employment for Electricians (SOC: 47-2111) of .9% annually, with an annual median wage of \$59,880. The typical education needed for occupation entry is a high school diploma or equivalent and an apprenticeship, and annual openings equate to 642 jobs per year. This occupation is included in the most recent High Demand/High Wage Occupation listing from the Kansas Department of Labor.

Lightcast job posting analytics show between December 2023 through December 2024, 616 total postings (270 unique postings) were advertised statewide. The annual median advertised salary was \$64,900. Removing job postings with no education level listed, 84% of postings indicate a high school diploma or equivalent for entry in the occupation.

CCC explained that the proposed program is included in the Perkins Comprehensive Local Needs Assessment as a program which is needed but not currently offered.

Three letters of industry support for the proposed program were received from Mayfield Electric, LLC, Potucek Electric, and Conco Construction. Supports and commitments for the program include interviewing program graduates, financial donations, hosting apprenticeships, and donating materials.

Currently, this program is offered by 12 institutions based on CIP code and/or program title. Below are the colleges, programs, total number of concentrators, total number of graduates, total number of graduates exiting the higher education system and employed, and average wage of graduates who exited the higher education system and are employed information from the 2023 K-TIP report, which includes only technical programs in two-year postsecondary institutions.

Kansas Training Information Program						
2023 K-TIP Electrician (CIP 46.0302)

46.0302	Electrician	Washburn Institute of Technology	61	43	39	\$31,956
46.0302	Electrician	Wichita State University Campus of Applied Sciences and Technology (approved November 2024)	NA	NA	NA	NA
Total			455	242	169	\$39,258

(^) small cell protection applied.

CCC collaborated with Highland Community College, Dodge City Community College, and Salina Area Technical College regarding resources, curriculum design, faculty recruitment, and serving diverse student populations. Winfield USD 465 and Arkansas City USD 470 provided letters of support for the program.

The college plans to begin the proposed program in the fall of 2025 and estimates the initial cost of the proposed program at \$197,623 total, including \$138,000 for equipment, tools, and instructional supplies, \$57,623 for new, full-time faculty, and \$2,000 for technology. Dr. Rachel Bates, Vice President of Academic Affairs, and Daniel Brooks, CTE Department Chair, will assume responsibility for the program.

The proposed program was subject to the 10-day comment period from December 19, 2024, to January 9, 2025, during which no comments were received.

Recommendation

The new program request submitted by Cowley Community College for a Technical Certificate B for 33 credit hours, a 49-credit hour Certificate C, and an Associate of Applied Science degree for 60 credit hours in Electrical Technology has been reviewed by Board staff and is brought forward for discussion.

III. Consideration of Discussion Agenda

B. *Act on Excel in Career Technical Education Fees:*

Charmine Chambers, Director for Workforce Development

Summary and Staff Recommendation

To enhance the talent pipeline for Kansas business and industry, the Legislature enacted the Excel in CTE initiative to provide state-financed colleges tuition for high school students in postsecondary technical education courses. Per statute (K.S.A. 72-3810), the Kansas Board of Regents shall establish general guidelines for tuition and fee schedules in career technical education courses and programs. The Excel in CTE tuition and fee schedule of every technical education program shall be subject to annual approval.

Background

K.S.A 72-3810 states:

“All tuition and fees charged for career technical education by any board shall be in such amounts as are authorized by rules and regulations adopted by the state board which shall establish general guidelines for tuition and fee schedules in career technical education courses and programs. The tuition and fee schedule of every career technical education program shall be subject to annual approval of the state board. A current complete schedule of tuition and fees for each career technical education course and program of each board as approved by the state board shall be maintained on file in the office of the state board and shall be open for public inspection at any reasonable time.”

"Fees means those charges assessed against a student by a community college, technical college or the institute of technology for student services, such as health clinics, athletic activities and technology services, or for books, supplies or other materials necessary for a particular course or program, the expense of which is not covered by tuition."

"Tuition means those charges assessed against a student by a community college, technical college or the institute of technology on a per credit hour, per course or per term basis, and that are charged to cover the general expense of providing instructional services."

As per the Postsecondary Technical Education Authority's (TEA) request, on Thursday, December 19, 2019, representatives from community colleges, technical colleges, and Board staff met to set guidelines for fees associated with Excel in CTE courses and programs. As a result of this meeting, agreed upon allowable fees include items/services students take with them and industry-specific fees required for entrance/acceptance into the program.

Allowable fees include:

- Uniforms
- Personal protective equipment
- Background checks
- Fingerprints
- Drug tests
- E-subscriptions/E-books
- Textbooks
- Printing fees for textbooks/E-books
- Certification tests
- Membership fees for certifying bodies
- Liability insurance (example: student malpractice)
- Graduation fees (if applicable)
- Transcript fees (if applicable)
- Student Software Licenses
- Professional Equipment/Kits/Tools students purchase

Unallowable fees include:

- Student fees (general)
- Technology fees
- Health fees
- Consumable project materials
- Program or Institution Application fees
- Lab Fees
- Equipment/tool maintenance, usage, replacement
- Rental (such as tools, books, or uniform/gear)
- Student kits
- Accuplacer or other placement tests
- Student ID
- Student organization memberships (such as Skills USA)
- Fees charged on a per credit-hour basis
- Any other fee not on the allowable list

Non-tiered courses - per statute (K.S.A. 71-1802) a technical program is defined as a "program of study comprised of a sequence of tiered technical courses and non-tiered courses, which is identified by the state board as a technical program for funding purposes." For this reason, students enrolled in technical programs may take non-tiered courses and are responsible for all associated tuition and fees.

Recommendation

The Excel in CTE fees below have been reviewed by KBOR staff and are provided for discussion by the Technical Education Authority's Technical Program and Curriculum Committee:

- Cowley Community College: Electrical Technology total \$1,286.90. Fees include \$651.90 in textbooks, \$160 for industry certifications, \$125 for work boots, and \$350 in tools.

III. Consideration of Discussion Agenda

C. Act on Promise Act Program:

Charmine Chambers, Director for Workforce Development

Summary and Staff Recommendation

The Kansas Legislature enacted the Kansas Promise Scholarship Act, which provides scholarships for students to attend an eligible postsecondary education institution. Eligible programs include any two-year associate degree program, career and technical education certificate, or stand-alone program that are approved by the Board of Regents and correspond to high wage, high demand, or critical need in:

- *four specified fields of study (information technology and security; mental and physical healthcare; advanced manufacturing and building trades; and early childhood education and development).*
- *one college designated field of study from the specified list (Agriculture; Food and Natural Resources; Education and Training; Law, Public Safety, Corrections, and Security; or Distribution and Logistics)*
- *transfer programs with an established 2+2 and/or articulation agreements.*

Background

On May 23, 2022, Governor Kelly signed 2022 Senate Substitute for House Bill 2567, which adopted changes in the Kansas Promise Scholarship Act, K.S.A. 2022 Supp. 74-32,271 et seq. The Act also maintains that the Board of Regents will administer the program. Administration is broken into three categories: rules and regulations, eligible programs, and other responsibilities.

Per statutory language (K.S.A. 2022 Supp. 74-32,271(b)(4) and K.S.A. 2022 Supp. 74-32,272(c)(1)(B)), a “promise eligible program” means any two-year associate degree program or career and technical education certificate or stand-alone program offered by an eligible postsecondary educational institution that is:

- a) approved by the Board of Regents;
- b) high wage, high demand, or critical need; and
- c) identified as a “promise eligible program” by the Board of Regents pursuant to K.S.A. 2022 Supp. 74-32,272, within any of the following fields of study:
 - Information Technology and Security
 - Mental and Physical Healthcare
 - Advanced Manufacturing and Building Trades
 - Early Childhood Education and Development

K.S.A. 2022 Supp. 74-32,272(a) states an eligible postsecondary educational institution may designate an additional field of study to meet local employment needs if the promise eligible programs within this field are two-year associate degree programs or career and technical education certificate and stand-alone programs approved by the Board of Regents that correspond to jobs that are high wage, high demand, or critical need in the community from one of the following fields:

- Agriculture;
- Food and Natural Resources;
- Education and Training;
- Law, Public Safety, Corrections, and Security; or
- Distribution, Logistics, and Transportation

K.S.A. 2022 Supp. 74-32,272(d) states that the Board of Regents may designate an associate degree transfer program as an eligible program only if such program is included in:

- a) An established 2+2 agreement with a Kansas four-year postsecondary education institution; or
- b) An articulation agreement with a Kansas four-year postsecondary educational institution and is part of an established degree pathway that allows a student to transfer at least sixty credit hours from the eligible from the eligible postsecondary educational institution to a four-year postsecondary education institution for the completion of an additional sixty credit hours toward a bachelor’s degree.

Recommendation

The following program is seeking approval to become Promise Act eligible program. The program has been reviewed by Board staff and is recommended for approval by the Technical Education Authority:

- Cowley Community College: Electrical Technology (46.0302) – falls under the Advanced Manufacturing and Building Trades category specified in legislation. SOC 47-2111 for Electricians was identified as a High Demand / High Wage occupation on the 2024 High Demand Occupations list from the Kansas Department of Labor.
